April 15, 2008

To the Honorable Mayor, Members of the Village
Council and Citizens of the Village of Key Biscayne:

The Government Finance Officers Association (GFOA) recommends that all units of local government publish, within six months of the close of each fiscal year, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) in the United States and audited in accordance with auditing standards generally accepted in the United States and in accordance with Government Auditing Standards by a firm of licensed certified public accountants. Pursuant to that recommendation, we hereby issue the comprehensive annual financial report of the Village of Key Biscayne for the fiscal year ended September 30, 2007.

This report consists of management's representation concerning the finances of the Village of Key Biscayne. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Village of Key Biscayne has established a comprehensive internal framework that is designed both to protect the Village's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Village of Key Biscayne's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Village of Key Biscayne's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The firm of Rachlin Cohen & Holtz LLP, licensed certified public accountants has audited the Village of Key Biscayne's financial statements. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of the Village of Key Biscayne for the fiscal year ended September 30, 2007 are free of material misstatement. The independent audit

involved examining, on a test basis, evidence supporting the amount and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Village of Key Biscayne's financial statements for the fiscal year ended September 30, 2007, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Village of Key Biscayne's MD&A can be found immediately following the report of the independent certified public accountants.

Profile of the Government

The Village of Key Biscayne, incorporated in 1991, is located on the southern most barrier island of the United States, Miami-Dade County, Florida approximately 7.5 miles off the coast of Miami, Florida. The Village of Key Biscayne occupies a land area of 1.25 square miles situated between Crandon Park and Bill Baggs State Recreation Area. The Village serves a population of approximately 11,100. The Village of Key Biscayne receives tax levies on real and personal property located inside its boundaries.

The Village of Key Biscayne has operated under the council-manager form of government since incorporation. Policymaking and legislative authority are vested in a governing council consisting of the mayor and six other council members. The Council is responsible among other things, for passing ordinances and resolutions, adopting the annual budget, appointing the Village Manager and Village Clerk. The Village Manager is responsible for carrying out the policies and ordinances of the Council, for overseeing the daily operations of the government, and for appointing the heads of various departments.

The Village of Key Biscayne offers a wide range of services, including, police protection, fire and emergency medical service, public works maintenance, a full service building, planning and zoning department, parks and recreation activities, solid waste collection, and a comprehensive storm water management system. Certain services are provided through the County School System and the County Library System through Miami-Dade County.

The annual budget serves as a foundation for the Village of Key Biscayne's financial planning and control. All departments of the Village are required to submit requests for appropriations to the Village Manager and these requests are the initiation of developing the proposed budget. The Village Manager then presents this proposed budget to the Council for review. The Council is required to hold public hearings on the proposed budget and to adopt a final budget no later than September 30, the close of the Village's fiscal year. The appropriated budget is prepared by fund and department. No department may legally expend in excess of the amount appropriated for that department within an individual fund. The Village Manager may make transfers of appropriations within a department. Transfers of appropriations between departments or funds require the

approval of the Village Council. The Village Council approves supplemental appropriations. Budget to actual comparisons are provided in this report for the general fund for which an appropriated annual budget has been adopted. The general fund, budget to actual report, is presented in the required supplemental information section of this report.

Local Economy

The Village of Key Biscayne enjoys a favorable economic environment and local indicators to continued future stability. This exclusive community is comprised of well-educated and involved citizens who take a genuine interest in the social, business, cultural and governing aspects of their Village. The Village is comprised of affluent exclusive residential housing stock and three major shopping centers. There is no industrial area in the community.

Long-Term Financial Planning

The Village has completed all three phases of its Civic Center Project with the completion of a new Village Hall/ Police Building, a new Fire Station, and most recently, the third phase, the Village Community Center, opened in November 2004. Recent completion of a new bus shelter at Crandon Boulevard and Harbor Drive was the second and largest bus shelter in the Village. Several public works projects have recently been completed yielding new sidewalks, street improvements, park improvements, and a tree replacement program. A capital project has been completed to improve the safety of the major roadway through the Village on Crandon Boulevard.

The Village utilizes a comprehensive living projection five years into the future to assess revenue trends and expenditure needs to assure a balanced stable financial program avoiding millage rate increases while addressing the various goals and objectives of the community.

Cash Management Policies and Practices

The Village's Cash Management strategy emphasizes immediate funds collection and deposit into the appropriate fund utilizing ACH debit or wire transfer methods in over 90% of all funds received. Cash is transferred to a centralized clearing account for all payments at the point of payment. The clearing account maintains a zero balance exclusive of these transfers. Currently, the Village's investment policy follows Chapter 218, Florida Statutes. Cash in any of the fund's operating accounts are swept into an overnight repurchase agreement, properly collateralized in accordance with Chapter 280, Florida statutes. Surplus cash is invested in certificates of deposit with qualified depositories, and with the State Board of Administration. Investment objectives are the preservation of principal, liquidity in accordance with planned cash flows, and return on investment in that order.

Risk Management

The Village is exposed to various risks of loss related to torts, theft of or damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Village participates in the Florida League of Cities Municipal Insurance Trust for workers' compensation,

liability and property insurance. Flood insurance is provided by the Florida State Flood Insurance Pool.

Pension Benefits

The Village of Key Biscayne sponsors a defined contribution 401(a) pension plan with the International City Managers' Association, Retirement Corporation (ICMA). Each full time employee can contribute up to six percent (6%) of his or her pay to the plan; the Village contributes twelve percent (12%). In addition, the Village sponsors a 457 deferred compensation plan in which the employees may contribute on a voluntary basis.

A defined benefit pension plan is available to all firefighters and sworn police officers. This plan is under the direction of a separate board of trustees, two of which are police and fire department employees. Complete details of this plan can be found in note 13 of the basic financial statements.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Key Biscayne for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2006. This was the fifteenth consecutive year that the Village received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of all departments of the Village of Key Biscayne. We would like to express our appreciation to all members of all of the departments who assisted and contributed to the preparation of this report. We would also like to express our appreciation to Rachlin LLP, our independent auditors, for their assistance and efforts in helping the Village prepare the CAFR. Appreciation is also extended to the Mayor and the Village Council for their unfailing support for maintaining the highest standards of professionalism in the management of the Village of Key Biscayne's finances.

Respectfully submitted,

FINANCIAL SECTION

**REPORT OF INDEPENDENT
CERTIFIED PUBLIC ACCOUNTANTS**

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Honorable Mayor, Village Council and Village Manager
Village of Key Biscayne, Florida

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Key Biscayne, Florida (the Village) as of September 30, 2007 and for the fiscal year then ended, which collectively comprise the Village's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Village's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the Village's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Key Biscayne, Florida as of September 30, 2007 and the respective changes in the financial position and cash flows, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States.

In accordance with *Government Auditing Standards*, we have also issued a report dated May 21, 2008 on our consideration of the Village's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Honorable Mayor, Village Council and Village Manager
Village of Key Biscayne, Florida
Page Two

Management's Discussion and Analysis and the required supplementary information on pages 3 through 10 and pages 43 through 46, respectively, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Key Biscayne's basic financial statements. The introductory section and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(MD&A)

Management's Discussion and Analysis

As Management of the Village of Key Biscayne, we offer readers of the Village of Key Biscayne's (the Village) financial statements this narrative overview and analysis of the financial activities of the Village of Key Biscayne for the fiscal year ended September 30, 2007. We encourage readers to consider information presented here in conjunction with additional information that we have furnished in our letter of transmittal which can be found on pages i-v of this report.

Financial Highlights

- The assets of the Village of Key Biscayne exceeded its liabilities at the close of the most recent fiscal year by \$43,075,575 (net assets).
- The Village's total net assets increased by \$6,008,367, this increase is attributable to the increase of property taxes received due to an increase in the assessed taxable values of properties in the Village, increases in revenues from the Key Biscayne Community Center programs and increased code compliance activities.
- At the close of the current fiscal year, the Village of Key Biscayne's governmental funds reported an ending fund balance of \$10,347,973, an increase of \$3,550,788 in comparison with the prior year. The total amount of fund balance is either reserved or designated for spending at the Council's direction.
- The Village incurred \$4,000,000 of new long-term debt during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Village of Key Biscayne's basic financial statements. The Village of Key Biscayne's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Village of Key Biscayne's finances, in a manner similar to a private sector business.

The statement of net assets presents information on all of the Village of Key Biscayne's assets and liabilities, with a difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Village of Key Biscayne is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Village of Key Biscayne that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village of Key Biscayne include general government, public safety, public works, building planning & zoning, and parks and recreation.

The government-wide financial statements include only the Village of Key Biscayne itself (known as the primary government).

The government-wide financial statements can be found on pages 11 and 12 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Key Biscayne, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Village of Key Biscayne has two fund categories, the governmental funds and the proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statement focus on near-term inflows and outflows of spend able resources as well as on balances of spend able resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village of Key Biscayne maintains three governmental funds, the general fund, a special revenue fund and a capital projects fund.

The Village of Key Biscayne adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 13 to 15 of this report.

Proprietary Funds. The Village maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Village uses enterprise funds to account for its Stormwater, Solid Waste Collection and Sanitary Sewer Construction operations.

The basic proprietary fund financial statements can be found on pages 16-18 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the Village. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 19-20 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21 to 42 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including budgetary comparisons and the Village's progress in funding its obligation to provide pension benefits to its employees.

Required supplementary information can be found on pages 43 to 46 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Village's, assets exceeded liabilities by \$43,075,575 at the close of the most recent fiscal year.

A portion of the Village's assets, \$75,920,147 or 84.74 %, reflects its investment in capital assets (e.g., land and equipment). The Village of Key Biscayne uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Our analysis of the financial statements of the Village begins below. The Statement of Net Assets and the Statement of Activities report information about the Village's activities that will help answer questions about the position of the Village. A comparative analysis is provided.

Governmental Activities. Governmental activities increased the Village of Key Biscayne fund balances by approximately \$3,550,788. This net overall increase was attributable to an increase in property tax revenues due to increased assessed values of Key Biscayne real estate in general and increased code enforcement activities. All other governmental activities increased fund balance as follows:

- Property taxes increased by \$3,837,741 (25.88 percent) during the year. Most of this increase is the product of a minor number of new units completed and on the tax roll for the first time, along with renovated homes with increased assessed values, and residential and commercial resales.
- Most department salaries increased 8 percent due to the Village's salary step program, which in fiscal year 2007 reflected a 5 percent increase in salaries and a 3 percent increase for a cost of living increase.
- Debt service remained fairly level compared to the prior year, with a minor addition for interest on new debt.
- The amount expended to the Village Attorney increased due to involvement with labor negotiations with the Village's Fire Rescue Department that were unforeseen at budget preparation time.

For the most part, increases in expenses closely paralleled inflation and growth in the scope of services.

Net Assets

A summary of the Village's net assets is presented in Table A-1 and a summary of the changes in net assets is presented in Table A-2.

The Village's net assets increased by \$6,008,367 during the current fiscal year. This increase represents the results of operations for a full 12-month period with no capital contributions from outside sources.

Business-type Activities

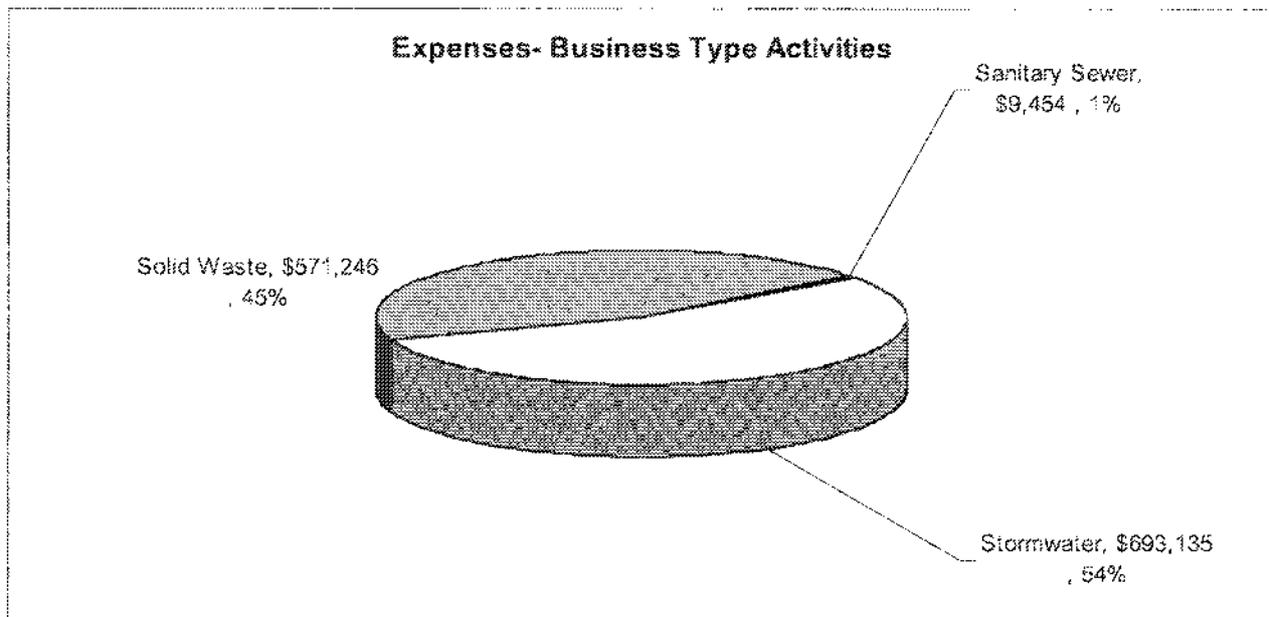

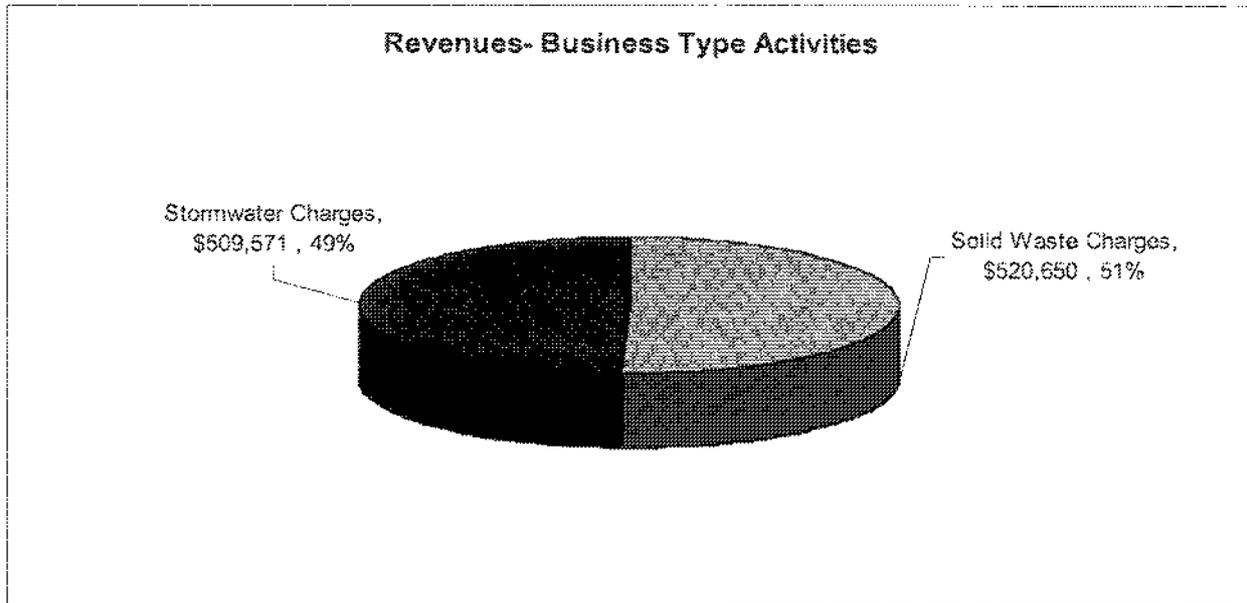

Business-type activities decreased the Village's net assets by \$166,395.

- In fiscal 2007, one of the three business-type activities reflected operational profits.
- The Stormwater Utility Fund reflected a net loss of \$139,534, due mainly to depreciation expense in the amount of \$273,919.
- The Solid Waste Collection Fund reported a net loss of \$45,540, due mainly to increased contractual costs.
- The Sanitary Sewer Construction Fund was dormant awaiting a resumption of construction activity.

Governmental Activities

Business-type Activities

Financial Analysis of the Government's Funds

As noted earlier, the Village of Key Biscayne uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Village of Key Biscayne's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village's financing requirements.

At the end of the current fiscal year, fund balance of the general fund was \$9,875,416, an increase of \$3,001,107 in comparison with the prior year. All of this is either reserved or designated for specific uses: (1) emergencies (\$4,000,000), (2) Building Inspection Costs (\$275,000), (3) Compensated Absences (\$338,539), (4) Law Enforcement Seizures (\$261,813), (5) Playing Field Acquisitions

(\$416,403), (7) Working Capital Reserves (\$1,000,000), (8) Police/Administration Building Reserve (\$13,632), (9) Fire Station Building Reserve (\$13,632), (10) Community Center Equipment Reserve (\$50,000), (11) Fire Vehicles Replacement Reserve (\$50,000), (12) Master Plan Initiatives (\$1,873,764), (13) Capital Lease (\$298,682), (14) Prepaid Items (\$198,990), (15) Roadway Improvements (\$175,000), (16) Recreation Facilities (\$300,000), (17) Police Labor Costs (\$90,000), (18) Fire Labor Costs (\$155,000) and (19) Capital Improvement Plan (\$341,017).

The general fund is the chief operating fund of the Village of Key Biscayne. As a measure of the general fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Total fund balance represents 47.74 percent of total general fund expenditures.

A summary of the general fund's condensed balance sheet and statement of revenues, expenditures and changes in fund balance is presented in Table B-1 and B-2 for September 30, 2007 and 2006, is shown as follows:

Table B-1
Summary of Condensed Balance Sheet

	<u>2007</u>	<u>2006</u>
Total assets	<u>\$ 11,623,098</u>	<u>\$ 8,045,610</u>
Total liabilities	\$ 1,747,682	\$ 1,171,300
Reserved or designated fund balance	<u>9,875,416</u>	<u>6,874,310</u>
Total liabilities and fund balance	<u>\$ 11,623,098</u>	<u>\$ 8,045,610</u>

Table B-2
**Summary of Condensed Statement of Revenues,
Expenditures and Changes in Fund Balances**

	<u>2007</u>	<u>2006</u>
Total revenues	\$ 26,592,900	\$ 25,264,190
Total expenditures	<u>20,686,819</u>	<u>22,554,700</u>
Excess of revenues over expenditures	<u>\$ 5,906,081</u>	<u>\$ 2,709,490</u>

The Special Revenue Fund was established to account for the construction and future maintenance of the Village's roadways. Bond revenue is the source of funding for construction of roadways, while the local option gas tax funds maintenance and the transportation surtax funds debt service.

At present, the fund shows a negative fund balance which was to be corrected with the Series 2006 Roadway Improvement Revenue Bonds, issued in late December 2006. The remainder of the negative fund balance will be eliminated with receipt of the County bridge toll revenues and State xoxo funds receipts.

The Capital Improvement Fund receives an annual budgeted transfer from the general fund to fund capital construction of infrastructure at various locations on the island. All transfers are allocated to specific projects by management and the council during the annual budgeting process. The fund balance increased by \$1,533,738 during the current fiscal period. Fund balance is comprised of funds allocated to named projects with varied stages of completion.

General Fund Budgetary Highlights

There were no supplemental appropriations or budget amendments for the fiscal year ended September 30, 2007.

Capital Assets

As of September 30, 2007, the Village's capital assets net of accumulated depreciation amounted to \$75,920,147. The total increase in capital assets for the fiscal year was as follows:

Major capital asset events during the fiscal year included the following:

- Continuation of the Village Tree Replacement Program
- Completion of drainage improvements on Woodcrest and Buttonwood Drives.
- Completion of the Crandon Blvd Improvement. Project, phase two

Additional information on the Village's capital assets can be found in Note 7 on pages 31-32 of this report.

Debt Administration

At September 30, 2007, the Village had bonded debt outstanding of \$41,819,708. Of this amount, \$5,550,000 represents bonds secured solely by specified revenue sources (Stormwater revenue bonds). The remainder is special obligation bonds that are secured by non-ad Valorem revenues through covenants to budget and appropriate.

The Village's total net debt outstanding increased by \$4,000,000 due to the additional borrowing required for Crandon Blvd. Phase 3 construction.

Additional information on the Village's long-term debt can be found in Note 8 on pages 33-37 of this report.

Economic Factors and Next Years Budgets and Rates

- The unemployment rate for Miami-Dade County is currently 4.2 percent, which is a decrease from a rate of 4.5 percent a year ago. This compares exactly to the state's average unemployment rate of 4.2 percent but favorable to the national average rate of 4.6 percent. The Village's average rate remained unchanged at 3.2 percent.
- The occupancy rate of the Village's retail rentals and hospitality service industry has remained stable for the past several years.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the Village of Key Biscayne's budget for the 2008 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the Village of Key Biscayne's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Village Manager, 88 West McIntyre Street, Key Biscayne, Florida 33149.

VILLAGE OF KEY BISCAYNE, FLORIDA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FISCAL YEAR ENDED SEPTEMBER 30, 2007

Amounts reported for governmental activities in the statement of activities
(Page 12) are different because:

Net change in fund balances - total governmental funds (Page 14)	\$ 3,550,788
--	--------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

The details of the difference are as follows:

Capital outlay	\$ 6,224,242	
Depreciation expense	<u>(1,329,350)</u>	
Net adjustment		4,894,892

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds.

The detail of the differences are as follows:

Debt payments	1,618,207	
Revenue bonds issued	<u>(4,000,000)</u>	
Net adjustment		(2,381,793)

Some expenses reported in the statement of activities do not require current financial resources and, therefore, are not reported as expenditures in governmental funds.

The details of the difference is:

Compensated absences	166,254	
Accrued interest expense	(51,143)	
Negative net pension obligation	<u>(4,236)</u>	
		<u>110,875</u>

Change in net assets of governmental activities (Page 12)	\$ <u>6,174,762</u>
---	---------------------

See notes to basic financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

SEPTEMBER 30, 2007

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Key Biscayne, Florida (the Village), located in Miami-Dade County, is a political subdivision of the State of Florida. The Village, which was incorporated in 1991, operates under a Council-Manager form of government. In addition to the general government function, the Village provides its residents with public works, public safety (police and fire), parks and recreation, building, zoning and planning functions, sanitation and stormwater management. The Village does not provide educational or hospital facilities; those services are provided by the Miami-Dade County School Board and Miami-Dade County, respectively.

The financial statements of the Village have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below:

A. Financial Reporting Entity

The financial statements were prepared in accordance with GASB Statements related to *The Financial Reporting Entity*, which establishes standards for defining and reporting on the financial reporting entity. The definition of the financial reporting entity is based upon the concept that elected officials are accountable to their constituents for their actions. One of the objectives of financial reporting is to provide users of financial statements with a basis for assessing the accountability of the elected officials. The financial reporting entity consists of the Village, organizations for which the Village is financially accountable, and other organizations for which the nature and significance of their relationship with the Village are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Village is financially accountable for a component unit if it appoints a voting majority of the organization's governing board and it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Village. Based upon the application of these criteria, there were no organizations that met the criteria described above.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the Village. For the most part, the effect of interfund activity has been removed from these statements.

Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees and other taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Revenues for expenditure driven grants are recognized when the qualifying expenditures are incurred. All other revenue items are considered to be measurable and available only when cash is received by the Village.

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Village reports the following major governmental funds:

The *General Fund* is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Special Revenue Fund* accounts for the revenues received from the transportation surtax and expenditures for related transportation costs.

The *Capital Improvement Fund* accounts for the acquisition or construction of various major capital projects.

The Village reports the following major proprietary funds in the basic financial statements:

The *Stormwater Utility Fund* accounts for the construction and maintenance of the Village's stormwater system.

The *Sanitary Sewer Fund* accounts for the development and construction of a municipal sanitary sewer system to the unsewered areas of the community.

Additionally, the Village reports the following fund types:

The *Pension Trust Fund* is used to account for the Village's single-employer defined benefit pension plan covering substantially all of its police officers and firefighters.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. The Village has the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Village has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the Village's various utility functions and various other functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village's stormwater utility, solid waste services and sanitary sewer construction funds are charges to customers for services. Operating expenses for enterprise funds include the costs of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The Village's cash and cash equivalents include cash on hand, and certificates of deposit with original maturities of three months or less from the date of acquisition and investments with the State Board Investment Pool. The Investment Pool is recorded at its value of the pool shares (2a-7 like pool) which is fair value. All other investments, including pension investments, are recorded at fair value. Fair value is determined by quoted market prices.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

3. Capital assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., utility plant, roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more than \$750 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. All infrastructure assets have been capitalized since inception of the Village.

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, and Net Assets or Equity (Continued)

3. Capital assets (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the asset constructed. No such costs were capitalized in 2007.

Capital assets of the Village are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	25-50
Improvements other than buildings	10-50
Furniture, fixtures and equipment	10
Stormwater utility system	50

4. Compensated absences

It is the Village's policy to permit employees to accumulate within certain limits, earned but unused vacation time and sick leave, which will be paid to employees upon separation from Village service. All vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. In the governmental funds, a liability is recorded only for vacation and sick leave payouts for employee separations that occurred prior to September 30, 2007 and were subsequently paid with current available financial resources. The general fund typically is used to liquidate the liability for compensated absences.

5. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line amortization method. The results of using this method do not differ significantly from the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, and Net Assets or Equity (Continued)

5. Long-Term Obligations (Continued)

are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

6. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts of assets, liabilities, disclosures of contingent liabilities, revenues and expenditures/expenses reported in the financial statements and accompanying notes. These estimates include assessing the collectibility of receivables, the realization of pension obligations and the useful lives of capital assets. Although these estimates as well as all estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

7. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance, where noted, represent tentative management plans that are subject to change.

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET ASSETS

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net assets – governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of this \$37,853,501 difference are as follows:

Bonds payable	\$35,667,559
Debt issuance cost	(23,537)
Capital leases payable	415,341
Compensated absences	1,457,963
Accrued interest payable	336,175
	<u>\$37,853,501</u>

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

NOTE 3. DEPOSITS AND INVESTMENTS

Deposits

In addition to insurance provided by the Federal Depository Insurance Corporation, all deposits are held in banking institutions approved by the State Treasurer of the State of Florida to hold public funds. Under Florida Statutes Chapter 280, *Florida Security for Public Deposits Act*, the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or another banking institution eligible collateral. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Accordingly, all amounts reported as deposits are insured or collateralized with securities held by the entity or its agent in the entity's name.

Investments

The Village is authorized to invest in obligations of the U.S. Treasury, its agencies, instrumentalities and the Local Government Surplus Funds Trust Fund administered by the State Board of Administration. The investments follow the investment rules defined in Florida Statutes Chapter 218.415. The investment policy defined in the statutes attempts to promote, through state assistance, the maximization of net interest earnings on invested surplus funds of local units of governments while limiting the risk to which the funds are exposed.

The Local Government Surplus Funds Trust Fund is governed by Ch. 19-7 of the Florida Administrative Code, which identifies the Rules of the State Board of Administration (SBA). These rules provide guidance and establish the general operating procedures for the administration of the Local Government Surplus Funds Trust Fund. Additionally, the Office of the Auditor General performs the operational audit of the activities and investments of the State Board of Administration. The Local Government Surplus Funds Trust Fund is not a registrant with the Securities and Exchange Commission (SEC); however, the Board has adopted operating procedures consistent with the requirements for a 2a-7 fund. See Note 14 for subsequent event relative to the SBA.

Investments – Village

As of September 30, 2007, the Village had the following investments with its corresponding maturities in its portfolio:

<u>Investments</u>	<u>Investment Maturities</u> <u>(In Years)</u>	
	<u>Fair</u> <u>Value</u>	<u>Less</u> <u>Than 1</u>
Repurchase agreements	<u>\$2,193,473</u>	<u>\$2,193,473</u>

Interest Rate Risk

Interest rate risk refers to the portfolio's exposure to fair value losses arising from increasing interest rates. The Village does not have a formal investment policy that limits investment maturities as a means of managing its exposure to market value losses arising from increasing interest rates.

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Investments – Village (Continued)

Credit Risk

State law and the Village's investment policy limits investments in bonds, U.S. treasuries and agency obligations, or other evidences of indebtedness to the top ratings issued by nationally recognized statistical rating organizations (NRSRO) of the United States. The Village's repurchase agreements are collateralized by U.S. agency obligations and were all rated AAA under Standard & Poor's ratings and AAA under Moody's ratings. Excess funds are also sent to the Local Government Surplus Funds Trust Fund administered by the SBA. The SBA does not have a rating from a NRSRO.

Concentration of Credit Risk

As of September 30, 2007, the value of each position held in the Village's portfolio comprised less than 5% of the Village investment assets.

Investments – Pension Plan

As of September 30, 2007, the Village's Defined Benefit Pension Plan had the following investments with its corresponding maturities in its portfolio:

<u>Investments</u>	<u>Investment Maturities (In Years)</u>				
	<u>Fair Value</u>	<u>Less Than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>10+</u>
Bond mutual funds	<u>\$2,720,242</u>	<u>\$ 92,488</u>	<u>\$1,719,193</u>	<u>\$ 590,293</u>	<u>\$ 318,268</u>

Interest Rate Risk

Interest rate risk refers to the portfolio's exposure to fair value losses arising from increasing interest rates. The Plan does not have a formal investment policy that limits investment maturities as a means of managing its exposure to market value losses arising from increasing interest rates.

Credit Risk

State law and the Plan's investment policy limits investments in bonds, stocks, or other evidences of indebtedness issued or guaranteed by a corporation organized under the laws of the United States, any state or organized territory of the United States, or the District of Columbia, provided the corporation is listed on any one or more of the recognized national stock exchanges or on the National Market System of the NASDAQ Stock Market and in the case of bonds only, holds a rating in one of the three highest classifications by a major rating service. The Plan's investment policy limits fixed income investments to a rating no lower than Standard & Poor's BBB or Moody's BAA.

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Investments – Pension Plan (Continued)

Credit Risk (Continued)

The Plan's bond mutual funds were all rated "A" or better under Standard & Poor's ratings and at least "A" under Moody's ratings.

Concentration of Credit Risk

The Plan's investment policy prohibits equity and fixed income securities concentrations greater than 5% and 10%, respectively, in any one issuer with the exception of U.S. government or agency issues. As of September 30, 2007, the value of each position held in the Plan's portfolio comprised less than 5% of Plan investment assets.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of plan net assets. The Plan, through its investment advisor, monitors the Plan's investment and the risks associated therewith on a regular basis which the Plan believes minimizes these risks.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 4. RECEIVABLES

Receivables as of September 30, 2007 for the Village's individual major funds, nonmajor funds and fiduciary fund in the aggregate, including the allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Special Revenue</u>	<u>Storm- water</u>	<u>Solid Waste</u>	<u>Pension Trust Fund</u>	<u>Total</u>
Customers billed	\$ -	\$ -	\$ 124,286	\$ 422,575	\$ -	\$ 546,861
Contributions	-	-	-	-	296,734	296,734
Property taxes	309,967	-	-	-	-	309,967
Interest	2,700	-	-	-	-	2,700
Intergovernmental	26,013	103,167	-	-	-	129,180
Other	<u>466,381</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>466,381</u>
Gross receivables	805,061	103,167	124,286	422,575	296,734	1,751,823
Less allowance for uncollectibles	<u>-</u>	<u>-</u>	<u>-</u>	<u>(13,229)</u>	<u>-</u>	<u>(13,229)</u>
Net total receivables	<u>\$ 805,061</u>	<u>\$ 103,167</u>	<u>\$ 124,286</u>	<u>\$ 409,346</u>	<u>\$ 296,734</u>	<u>\$ 1,738,594</u>

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 5. PROPERTY TAXES

Property values are assessed on a county-wide basis by the Miami-Dade County Property Appraiser as of January 1, the lien date, of each year and are due the following November 1. Taxable value of property within the Village is certified by the Property Appraiser and the Village levies a tax millage rate upon the taxable value, which will provide revenue required for the fiscal year beginning October 1.

Property taxes levied each November 1, by the Village and all other taxing authorities within the County, are centrally billed and collected by Miami-Dade County, with remittances to the Village of their proportionate share of collected taxes. Taxes for the fiscal year beginning October 1 are billed in the month of November, subject to a 1% per month discount for the period November through February, and are due no later than March 31. On April 1, unpaid amounts become delinquent with interest and penalties added thereafter. Beginning June 1, tax certificates representing delinquent taxes with interest and penalties are sold by Miami-Dade County, with remittance to the Village for its share of those receipts. At September 30, 2007, there were no material delinquent taxes.

NOTE 6. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of September 30, 2007 is as follows:

Due from/to other funds:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Special revenue	\$1,873,204
	Capital improvement	373,656
	Stormwater utility	312,086
	Sanitary sewer	242,150
	Solid Waste	334,812
Capital improvements	Stormwater utility	67,219
	Sanitary sewer	382,970
		<u>\$3,586,097</u>

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers:

	Transfers In			<u>Total</u>
	<u>General Fund</u>	<u>Capital Improvement</u>	<u>Sanitary Sewer</u>	
Transfers out:				
General fund	\$ -	\$ 4,787,347	\$ 28,134	\$ 4,815,481
Capital improvement	1,910,507	-	-	1,910,507
	<u>\$ 1,910,507</u>	<u>\$ 4,787,347</u>	<u>\$ 28,134</u>	<u>\$ 6,725,988</u>

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

NOTE 6. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund transfers: (Continued)

Transfers are used to move unrestricted general fund revenues to finance various capital projects in accordance with budgetary authorizations.

NOTE 7. CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2007 was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$21,833,837	\$ -	\$ -	\$21,833,837
Construction in progress	5,191,965	6,307,375	(787,769)	10,711,571

Transportation Tax Revenue Bonds

On July 15, 2005, the Village issued Transportation Tax Revenue Bonds, Series 2005, for the purpose of financing a portion of the costs of road improvements within the Village (Crandon Boulevard Improvements – Phase II). The issuance was established similar to bond anticipation notes where the principal amount is the lesser of \$3,500,000 or the advances made under the bond. Only the amount advanced becomes an obligation of the Village. During the fiscal year ended September 30, 2006, the Village drew down the remaining \$3,450,000. The bonds mature on July 1, 2025 and are due in quarterly principal installments. Interest accrues at 4.09% per annum.

Debt service requirements to maturity are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Fiscal year ending September 30:			
2008	\$ 47,734	\$ 35,788	\$ 83,522
2009	195,867	138,219	334,086

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 9. COMMITMENTS AND CONTINGENCIES

Construction Commitments

As of September 30, 2007, the Village had outstanding construction commitments of \$1,857,481 to complete Phase II of the Crandon Boulevard project.

Litigation

The Village is involved in several lawsuits incidental to its operations, the outcome of which, in the opinion of management and legal counsel, would not have a material adverse effect on the financial condition of the Village.

Risk Management

The Village is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions and natural disasters for which the Village carries commercial insurance. There was no reduction in insurance coverage from coverages in the prior year and there were no settlements that exceeded insurance coverage for each of the past three years.

Grants Contingency

Federal and State programs in which the Village participates are subject to audit by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. In the opinion of management, future disallowances of grant expenditures, if any, would not have a material adverse effect on the financial condition of the Village.

NOTE 10. DEFICIT FUND BALANCE

The Special Revenue Fund has a deficit fund balance of \$2,482,196 which is being funded from the General Fund.

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 11. RESERVED FUND BALANCES

As of September 30, 2007, fund balances in the general fund have been reserved for the following purposes:

Emergencies	\$4,000,000
Master Plan initiatives	1,873,764
Working capital	1,000,000
Playing fields	416,403
Capital Improvement Plan	341,017
Compensated absences	338,589
Recreation facilities	300,000
Capital lease	298,680
Building inspections	275,000
Law enforcement seizures	261,813
Prepays	198,990
Roadway improvements	175,000
Fire Labor	155,000
Police Labor	90,000
Community Center equipment	50,000
Fire vehicle replacements	50,000
Fire Rescue Transport Fees	23,896
Police/Administration building	13,632
Fire Station building	13,632
	<u>\$9,875,416</u>

NOTE 12. DEFINED CONTRIBUTION PLANS

The Village as a single-employer contributes to the Village of Key Biscayne Money Purchase Plans, which are defined contribution plans created in accordance with Internal Revenue Code Section 401(a). Under one Plan, which is available to Village employees, the Village contributes 12% and the employees contribute 6%. Under the second plan, which is available only to sworn or certified police officers and firefighters, the Village contributes 12% and there is no employee contribution. Beginning October 1, 1997, the police officers and firefighters, which elected to participate in the defined benefit pension plan (see Note 13), were no longer eligible to contribute to the 401(a) plan. Employer contributions for the fiscal year ended September 30, 2007 were \$421,947 while the employee contributions were \$553,045. Amendments to the Plan must be authorized by the Village Council.

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 13. DEFINED BENEFIT PENSION PLAN

Plan Description

Effective October 1, 1997, the Village established a single-employer Public Employee Retirement System (PERS) to provide pension benefits for its police officers and firefighters. The PERS is considered to be part of the Village's financial reporting entity and is included in the Village's financial reports as a pension trust fund. The Plan was created under Village Ordinance 97-21. The latest available actuarial valuation is as of October 1, 2006. The PERS does not issue a stand-alone financial report for the Plan.

Under this plan, all full-time police officers and firefighters employed by the Village are eligible to participate. The monthly retirement benefit is equal to 3% of the average final compensation for each year of service. The calculation for the average final compensation is computed as one-twelfth of the average salary of the five highest years within the last ten years of credited service. Credited service is determined by the total number of years employed by the Village since August 1, 1993. Amendments to the Plan must be authorized by the Village Council.

Members are vested after 5 years of service. Vested employees may retire at the earlier of age 55 and the completion of five years of credited service or the age of 52 and the completion of 25 years of credited service, or at age 50 with 5 years of service with the benefit discounted 3% for each year under age 55.

Administrative costs of the plan are financed through investment earnings. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Benefits and funds are recorded when paid.

At October 1, 2006 (date of the latest actuarial valuation), Plan membership consisted of the following:

Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	<u>14</u>
Current employees:	
Vested	33
Non-vested	<u>31</u>
Total	<u>64</u>

Funding Policy

The Village's contribution rate is adjusted each year to an amount equal to the total pension cost for the year, as determined by the most recent actuarial valuation, less the amount of revenue received from the State of Florida pursuant to Chapters 175 and 185 of the Florida Statutes. The Village's contribution rate was 10.74% of covered payroll for the year ended September 30, 2007 which was determined by the October 1, 2005 actuarial valuation. The participant contribution rate which is fixed by ordinance is 10.5%. This funding policy is designed to limit the Village's exposure to contribute to the Plan. State contributions are recognized as a revenue and expenditure in the general fund.

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

NOTE 13. DEFINED BENEFIT PENSION PLAN (Continued)

Annual Pension Cost and Net Pension Obligation

The annual pension cost and net pension obligation (asset) for the current year was as follows:

Annual required contribution	\$ 773,701
Interest on net pension asset	(11,040)
Adjustment to annual required contribution	<u>15,276</u>
Annual pension cost	777,937
Contributions made	<u>773,701</u>
Decrease in net pension asset	4,236
Net pension asset, beginning of year	<u>(142,067)</u>
Net pension asset, end of year	<u>\$ (137,831)</u>

The annual required contribution for the current year was determined as part of the October 1, 2005 actuarial valuation using the entry age normal funding method. This method does not identify and separately amortize unfunded actuarial liabilities. The actuarial assumptions included (a) 8.5% investment rate of return (net of investment related expenses) and (b) projected salary increases of 9.4% to 3.5% variable per year. Both (a) and (b) included an inflation component of 4%. The actuarial value of assets was determined using the difference between actual and expected return recognized over five years.

Fiscal Year Ended	Trend Information		Net Pension Obligation (Asset)
	Annual Pension Cost (APC)	Percentage of APC Contributed	
9/30/2005	\$ 768,274	99.5%	\$ (146,088)
9/30/2006	733,878	99.5%	(142,067)
9/30/2007	777,937	99.5%	(137,831)

NOTE 14. SUBSEQUENT EVENT

State Board of Administration (SBA) Investment Pool

As discussed in Note 3, at September 30, 2007, the Village had \$130,954 invested in the State Board of Administration's Local Government Surplus Funds Trust Fund Investment Pool (Pool). On November 29, 2007, the State Board of Administration implemented a temporary freeze on the assets held in the Pool due to an unprecedented amount of withdrawals from the Fund coupled with the absence of market liquidity for certain securities within the Pool. The significant amount of withdrawals followed reports that the Pool held asset-backed commercial paper that was subject to sub prime mortgage risk. On December 4, 2007, based

VILLAGE OF KEY BISCAYNE, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

NOTE 14. SUBSEQUENT EVENT (Continued)

State Board of Administration (SBA) Investment Pool (Continued)

on recommendations from an outside financial advisor, the State Board of Administration restructured the Pool into two separate pools. Pool A consisted of all money market appropriate assets, which was approximately \$12 billion or 86% of Pool assets. Pool B consisted of assets that either defaulted on a payment, paid more slowly than expected, and/or had any significant credit and liquidity risk, which was approximately \$2 billion or 14% of Pool assets. At the time of the restructuring, all current pool participants had their existing balances proportionately allocated into Pool A and Pool B.

Currently, Pool A participants may withdraw 15% of their balance or \$2 million, whichever is greater, without penalty. Withdrawals from Pool A in excess of the above limit are subject to a 2% redemption fee. New investments in Pool A are not subject to the redemption fee or withdrawal restrictions. Future withdrawal provisions from Pool A will be subject to further evaluation based on the maturities of existing investments and the liquidity requirements of the Pool. On December 21, 2007, Standard and Poor's Ratings Services assigned its "AAAM" principal stability fund rating to Pool A.

Currently, Pool B participants are prohibited from withdrawing any amount from the Pool and a formal withdrawal policy has not yet been developed. Market valuations of the assets held in Pool B are not readily available. In addition, full realization of the principal value of Pool B assets is not readily determinable.

As of January 9, 2008, the Village no longer had any investments in Pool A or B, respectively. Additional information regarding the Local Government Surplus Funds Trust Fund may be obtained from the State Board of Administration.

VILLAGE OF KEY BISCAYNE, FLORIDA

REQUIRED SUPPLEMENTARY INFORMATION

NOTE TO BUDGETARY COMPARISON SCHEDULE

FISCAL YEAR ENDED SEPTEMBER 30, 2007

NOTE 1. BUDGETS AND BUDGETARY ACCOUNTING

An annual appropriated budget is prepared for the general fund. The Village prepares a budget for its special revenue fund and its capital projects fund, however, these budgets are prepared as project budgets and not as annually appropriated budgets.

The Village follows these procedures in establishing the budgetary data reflected in the financial statements:

- (a) The Village Manager submits to the Council a proposed operating budget for the ensuing fiscal year. The operating budget includes appropriations and the means of financing them with an explanation regarding each expenditure that is not of a routine nature.
- (b) Public hearings are conducted to obtain taxpayer comments.
- (c) Prior to October 1, the budget is legally enacted through passage of an ordinance.
- (d) The Village Council, by motion, may make supplemental appropriations for the year up to the amount of revenues in excess of those estimated. During fiscal year ended September 30, 2007, there were no supplemental appropriations.
- (e) Formal budgetary integration is employed as a management control device for the general fund.
- (f) The budget for the general fund is adopted on a basis consistent with generally accepted accounting principles (GAAP), except for certain unbudgeted expenditures of prior year reserves.
- (g) The Village Manager is authorized to transfer part or all of an encumbered appropriation balance within departments within a fund; however, any revisions that alter the total appropriations of any department or fund must be approved by the Village Council.
- (h) There were no budget amendments during fiscal year ended September 30, 2007.
- (i) The classification detail at which expenditures may not legally exceed appropriations is at the department level. There is no overexpenditure in debt service as the principal and interest are combined in preparation of the Village's budget. There is no overexpenditure subject to the Village's legal requirements in the parks and recreation department as the Village Council allows for up to \$250,000 of overexpenditure without considering this a violation of the budget.

Subtotal, Overlapping Debt			31,823,122
Village of Key Biscayne Direct Debt			<u>36,895,102</u>
Total Direct and Overlapping Debt			<u>\$ 68,718,224</u>

Sources: Data provided by the Miami-Dade County Finance Department and the Miami-Dade County School Board.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Village. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Village of Key Biscayne. This process recognizes that, when considering the Village's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Value that is within the Village's boundaries and dividing it by the County's and School Board's total taxable assessed value. This approach was also used for the other debt.

COMPLIANCE SECTION

**Report of Independent Certified Public Accountants on Internal Control over
Financial Reporting and on Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance with *Government Auditing Standards***

Honorable Mayor, Village Council and Village Manager
Village of Key Biscayne, Florida

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Key Biscayne, Florida (the Village) as of and for the fiscal year ended September 30, 2007, and have issued our report thereon dated May 21, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Village's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control over financial reporting.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the Village's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Village's financial statements that is more than inconsequential will not be prevented or detected by the Village's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Village's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Honorable Mayor, Village Council and Village Manager
Village of Key Biscayne, Florida
Page Two

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

However, we noted an other matter that we have reported to management in the accompanying schedule of findings and responses.

This report is intended solely for the information and use of the Mayor, Village Council, Village Manager and regulatory agencies, and is not intended to be and should not be used by anyone other than these specified parties.

Management Letter in Accordance with the Rules of the Auditor General of the State of Florida

Honorable Mayor, Village Council and Village Manager
Village of Key Biscayne, Florida

We have audited the financial statements of the Village of Key Biscayne, Florida (the Village) as of and for the fiscal year ended September 30, 2007, and have issued our report thereon dated May 21, 2008.

We conducted our audit in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. We have issued our Report of Independent Certified Public Accountants on Internal Control over Financial Reporting and on Compliance and Other Matters. Disclosures in that report, which is dated May 21, 2008, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with the provisions of Chapter 10.550, Rules of the Auditor General, which govern the conduct of local governmental entity audits performed in the State of Florida and, unless otherwise required to be reported in the report on compliance and internal controls this letter is required to include the following information.

- Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address significant findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address significant findings and recommendations made in the preceding annual financial audit report, except as noted in the schedule of findings and responses.
- Section 10.554(1)(i)2., Rules of the Auditor General, requires our audit to include a review of the provisions of Section 218.415, Florida Statutes, regarding the investment of public funds. In connection with our audit, we determined that the Village complied with Section 218.415, Florida Statutes.
- Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management, accounting procedures, and internal controls. In connection with our audit, recommendations accompany this report in the schedule of findings and responses.
- Section 10.554(1)(i)4., Rules of the Auditor General, requires that we address violations of provisions of contracts and grant agreements or abuse that have an effect on the financial statements that is less than material but more than inconsequential. In connection with our audit, we did not have any such findings.
- Section 10.554(1)(i)5., Rules of the Auditor General, requires, based on professional judgment, the reporting of the following matters that are inconsequential to the financial statements, considering both quantitative and qualitative factors: (1) violations of laws, rules, regulations, and contractual provisions or abuse that have occurred, or were likely to have occurred, and would have an immaterial

effect on the financial statements; (2) improper expenditures or illegal acts that would have an immaterial effect on the financial statements; and (3) control deficiencies that are not significant deficiencies, including, but not limited to; (a) improper or inadequate accounting procedures (e.g., the omission of required disclosures from the financial statements); (b) failures to properly record financial transactions; and (c) other inaccuracies, shortages, defalcations, and instances of fraud discovered by, or that come to the attention of, the auditor. In connection with our audit, we did not have any such findings.

- Section 10.554(1)(i)6., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. Village of Key Biscayne was incorporated by the Laws of Florida, Act of 1955. There are no component units related to the Village.
- Section 10.554(1)(i)7.a., Rules of the Auditor General, requires a statement be included as to whether or not the local governmental entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the Village did not meet any of the conditions described in Section 218.503(1), Florida Statutes.
- Section 10.554(1)(i)7.b., Rules of the Auditor General, requires that we determine whether the annual financial report for the Village for the fiscal year ended September 30, 2007, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2007. In connection with our audit, we determined that these two reports were in agreement.
- Sections 10.554(1)(i)7.c. and 10.556(7), Rules of the Auditor General, require that we apply financial condition assessment procedures. In connection with our audit, we applied financial condition assessment procedures. It is management's responsibility to monitor the entity's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. The assessment was done as of the fiscal year end. There were no findings that identified deteriorating financial conditions.

This management letter is intended solely for the information of the Honorable Mayor, Village Council, Village Manager and the Auditor General of the State of Florida and is not intended to be and should not be used by anyone other than these specified parties.

VILLAGE OF KEY BISCAYNE, FLORIDA

SCHEDULE OF FINDINGS AND RESPONSES

FISCAL YEAR ENDED SEPTEMBER 30, 2007

PRIOR YEAR FINDING NOT IMPLEMENTED

Control Deficiency

06-01 Village Credit Cards

Condition

When performing a test over the process of the Village personnel and their use of Village issued credit cards, we noted in various instances that there was no support attached or in adequate support attached to the credit card statement identifying the business purpose of the transaction. In those instances, sign offs of responsible officials were noted on the credit card statement. This is a repeat comment from the prior year. Subsequent to the reporting of this matter in the prior year's audit, we were provided a written policy prepared by the Village, however, we noted during our audit for the fiscal year ended September 30, 2007, that the credit card policy was not properly communicated to Village personnel.

Criteria

The Village has the responsibility to safeguard their assets from loss or misuse.

Cause

Lack of adequate internal controls over credit card practices stemming from lack of a written policy communicated to Village personnel.

Effect

Inadequately supported transactions of expenses paid with the Village credit cards.

Recommendation

We recommend that the Village communicate written policies and procedures for the proper safeguarding and usage of the Village credit cards. Examples of what the written policy may include are as follows: adequate oversight and internal controls should include safeguarding the actual credit card; ensuring only authorized personnel have access to the credit card; sufficient documentation of all credit cards purchases should be maintained in the form of invoices and/or receipts and in the rare instance where a receipt is lost or cannot be obtained, a sign off by a responsible Village official; monthly credit cards statements should be reconciled to the receipts on hand by a person other than the individual who are authorized to use the credit card and documentation should support a valid business purpose; payments should be remitted to the credit card vendor in a timely fashion to avoid late fees and charges.

Views of Responsible Officials and Planned Corrective Actions

The Village has adopted a written credit policy approved by the Village Manager. It states that all purchases shall be accompanied by complete receipt documentation. The monthly statements are not paid until 100% compliance with this provision is accomplished. At times credit privileges are suspended until payment is received. There is no exception to this policy.

VILLAGE OF KEY BISCAYNE, FLORIDA

SCHEDULE OF FINDINGS AND QUESTIONED COSTS (Continued)

CURRENT YEAR FINDINGS AND RECOMMENDATIONS

None.

NEW PRONOUNCEMENT

Governmental Accounting Standards Board Statement No. 45 – Accounting and Financial Reporting by Employers for Post-Employment Benefits Other than Pensions

The GASB has issued Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions," which provides guidance on all aspects of OPEB reporting by employers. The requirements of this statement are effective for fiscal periods beginning after December 15, 2006, for governments with annual revenues of \$100 million or more; for fiscal periods beginning after December 15, 2007, for governments with total annual revenues of \$10 million or more but less than \$100 million; and for fiscal periods beginning after December 15, 2008, for governments with total annual revenues of less than \$10 million. The Village will be required to implement this pronouncement for the fiscal year ended September 30, 2009.

Recommendation

The contents of this statement are highly complex and will require significant lead time to implement on the respective implementation date. We would suggest that the Village obtain a thorough understanding of the requirements and initiate planning for implementation in a prudent manner.
