

## **Art in Public Places Board Quarterly Report: January to April 2015**

Artist Jim Drain continues to work on his sculpture for the Village Green. He reported to the APP Board at their January and March meetings on the progress of the sculpture fabrication. The target date for installation is the first week in June.

The APP Board reviewed artists and approaches for the Lake Park project and selected Miami-based artist Barbara Neijna to make a proposal. Ms. Neijna has accepted.

The APP Board reviewed a proposal from Conservator Rosa Lowinger and recommended its implementation to the Village Manager. The result will be a professional assessment of the maintenance and upkeep requirements of the Bedia Plazas and the Civic Center Oval artwork.

The APP Board will be reviewing Prudence Gill's sculpture at its May meeting. A report will be forwarded to the Village Manager for presentation to the Mayor and Council.

Following recommendations from Gina Coleman and Mr. Trasobares, the landscaping of the Civic Center Oval has been updated with the guidance of Mercedes Porcari.

Mr. Trasobares continues to oversee a video-taped documentary of the fabrication and installation of Jim Drain's artwork. Photography and video are in progress.

Respectfully submitted,  
Cesar Trasobares  
Public Art Consultant
