

**Art in Public Places Board
Quarterly Report: October to December 2014**

Artist Jim Drain continues to work on his sculpture for the Village Green. Mr. Trasobares is following up the development of this project.

After the APP Board recommended Lake Park as the location for the next public art commission, Mr. Trasobares has been working with Village Consultant Mercedes Porcari to develop schematic plans for presentation to the APP Board. Mr. Trasobares has begun to research artists for the project for consideration by the APP Board. Conversations about this location and type of artwork will continue at the Board's February meeting.

Gina Coleman and Mr. Trasobares met with Ms. Porcari to update the landscaping of the Civic Center Oval.

Mr. Trasobares continues to oversee a video-taped documentary of the fabrication and installation of Jim Drain's artwork. Videographer Christopher Barron Sherer has conducted initial interviews with the artist and astronomer Walter Van Hamme. Photography and video are in progress.

Respectfully submitted,
Cesar Trasobares
Public Art Consultant
