Fred Snitzer, representing Bedia, agreed that formal drawings will be provided to the Village per the contract and that the presentation boards did not satisfy that requirement. The Board approved the drawings. Cesar Trasobares said construction can begin as early as mid June. The estimated cost for the project with terrazzo and color, which was not part of the original project, is now \$102,000. Cesar Trasobares recommended that an additional \$5,000 be added for contingency expenses. The cost breakdown is \$40,000 artist fee and design drawings, \$20,000 for the original project, and \$42,000 for the upgraded materials. The Board discussed ways to meet the shortfall and requested to meet with the Village Manager at the next meeting. The Board discussed the Matheson project which is tentatively to start on August 23, 2007 at the Community Center.
