RE: Waiver of Plat for Two Properties: 490 W. Matheson Drive
and 1 Harbor Point

APPLICATION SUMMARY

Table with 2 columns: Field Name and Value. Fields include Applicants, Request, Site Address, Master Plan Land Use, Zoning District, File Number, and Recommendation.

EXPLANATION AND ANALYSIS

The Request: The 490 W. Matheson Drive property presently contains 2 platted lots and unplatted land at the end of W. Matheson Drive. The property at 1 Harbor Point contains 2 platted lots. The application involves two (2) separate properties which are adjacent to one another. The properties are located a 490 W. Matheson Drive and 1 Harbor Point. The applicants have entered into a real estate transaction involving the sale of 10,124 sq. ft. of property from 1 Harbor Point to 490 W. Matheson Drive. Should the request be approved a new home at 490 W. Matheson Drive could contain 32,695 sq. ft. and a home at 1 Harbor Point could have 20,208 sq. ft. (10,124 sq. ft. of land permits 4,758 sq. ft. of floor area). As a reference point, the Community Center contains approximately 38,000 sq. ft. of interior space.

Waiver of Plat Review Criteria: The Village's Zoning and Land Development Regulations do not include platting, re-platting, or waiver of plat regulations. In this situation, our Regulations direct that the Village apply the County's procedures. The applicable County regulation is below:

Whenever land is subdivided a plat must be recorded, except that the recording of a plat will not be required if the application is consistent with one of four (4) exemptions that are provided in the County Code. The four (4) exemptions are attached to this report. The application is consistent with criteria listed below:

Criteria: The land to be subdivided is to be divided into no more than six (6) parcels and because of (a) unusual conditions created by ownership or development of adjacent lands, or (b) the isolation or remoteness of the land concerned in relation to other platted or improved lands, or (c) improvements and dedications existing on the land substantially in accordance with the requirements of this chapter, it is determined by the plat division of the appropriate authority that waiving of the requirement for platting would not conflict with the purpose and intent of this chapter. In lieu of platting, the plat division of the appropriate authority may require any dedications, reservations, or improvements required in connection with platting under this chapter, including the posting of a performance and maintenance bond, as may be necessary to carry out the intent and purpose of this chapter.

Analysis: The re-subdivision involves the combination of one (1) lot and a portion of another lot. As this situation involves less than the six (6) lot maximum, the application is consistent with the County's criteria.

Finding: Consistent

RECOMMENDATION

Staff recommends approval of the request because the application is consistent with the review criteria. Staff is concerned that due to the size of the home which could be built, that the owner intends to include accessory uses that are not permitted.

This law firm represents the property owners.
