RE: Stimulus Funding

---

Submittal of projects for stimulus funding consideration is of a time-sensitive nature. I have reviewed many projects that have been part of our ongoing creation of a 5-Year Capital Plan. The attached list of projects may be eligible and/or could meet the definition of projects that can comply with required timelines for obligation of funds.

These projects are in addition to the \$ 260,000 resurfacing and lighting project for Harbor Drive that was included in the transportation/transit projects for the Metropolitan Planning Organization (MPO) and the Transportation Improvement Program (TIP) that will be submitted to the Florida Department of Transportation. Additionally, the traffic calming project for West Wood Drive is being forwarded by FDOT District 6 to the central office in Tallahassee for consideration on a state-wide level.

I am placing on the agenda for discussion to allow for submittal of projects to the respective agencies.
