MEMORANDUM

Village Manager

Genaro "Chip" Iglesias

TO: Honorable Mayor and Members of the Village Council

FROM: Genaro "Chip" Iglesias, Village Manager

RE: Canon Business Solutions Lease Agreement

RECOMMENDATION

It is my recommendation to enter into a lease agreement with Canon to replace the existing copiers located within each department for a 60 month term.

BACKGROUND

During the June 9th Council Meeting, Council approved the maintenance agreement with Canon in the amount of \$445.95 per month which includes all copiers within the Village for a 60 month term. The Village currently maintains several lease agreements for a total cost of \$3,332.64 per month.

Staff has obtained consolidated proposals from the current vendor and Canon. The proposals were to combine our leases under one umbrella lease/maintenance and pay-off the remaining terms on the existing equipment. Additionally, we would upgrade with newer technology.

Both proposals were providing rates from other competitive bid contracts with public institutions. In Canon's case, they were quoting us rates from their contract with the University of Florida, a public institution. In order to grant the Village with the same aggressive rates we need to "piggyback" off of the attached University of Florida contract with Canon. If we were to do this independently, we could not receive the same aggressive rates because of our low number of units and volume of copies. The lease agreement will be \$1,901.00 per month for a 60 month term.

RESOLUTION NO. 2009-_____

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, APPROVING A LEASE OF COPIER EQUIPMENT AND A PURCHASE ORDER BETWEEN THE VILLAGE OF KEY BISCAYNE AND CANON BUSINESS SOLUTIONS; PROVIDING FOR IMPLEMENTATION; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Village Council desires to lease copier equipment from Canon Business Solutions (the "Consultant"); and

WHEREAS, the Village Council finds that no competitive bidding is required for the lease of the equipment and approval of the Purchase Order pursuant to Village Code Section 2-86, which authorizes the Village Manager to enter into bids or contracts entered into by another governmental entity with substantially similar competitive bidding procedures, as well as Section 2-85 of the Village Code, which authorizes waiver of competitive bidding upon the Village Council hereby finding that it is impracticable to apply competitive bidding procedures in light of the need to expeditiously proceed with the lease ; and

WHEREAS, the Village Council finds that approval of Purchase Order 175 (the "Purchase Order") attached hereto as Exhibit "A" and the lease of copier equipment between Consultant and the Village is in the best interest of the Village.

NOW, THEREFORE, IT IS HEREBY RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. Recitals Adopted. That each of the recitals stated above is hereby adopted and confirmed.

Section 2. Lease Approved. That the lease of the copier equipment from Consultant, as described in the Purchase Order, for \$1901.00 per month, subject to the terms and conditions of Contract #ITN07DD-162YC between Consultant and the University of Florida attached hereto as Exhibit "B," is hereby approved.

Section 3. Purchase Order Approved. That Purchase Order 175 (the "Purchase Order"), in substantially the form attached hereto, is hereby approved, and the Village Manager

is hereby authorized to execute the Purchase Order on behalf of the Village, subject to approval of the Village Attorney as to form and legal sufficiency.

Section 4. Implementation. That the Village Manager is hereby authorized to take any necessary action to implement the lease of the equipment, the Purchase Order, and this Resolution.

Section 5. Effective Date. That this Resolution shall be effective immediately upon adoption hereof.

PASSED AND ADOPTED this _____ day of July, 2009.

CANON UNIVERSITY OF FLORIDA CONTRACT #ITN07D-162YC

ORDERING INFORMATION

Contract effective dates: 11/1/2007 to 11/1/2010 with 2 1-yr renewal options.

Contract No: ITN07DD-162YC

Eligible Users and Geographic Scope: within Florida, all state universities, community colleges, district school boards, educational institutions and governmental agencies.

Scope: This contract provides the University of Florida to either purchase or lease the entire line of Canon imageRUNNER, Color imageRUNNER, imagePRESS, Color Laser Copier, imagePROGRAF, Laser Class, imageRUNNER LBP, Microfilm Scanners and Document Scanners. It covers the following plans: Purchase, Maintenance and Lease (36- and 60-months). Lease is not for LASER CLASS fax, LBP, micro or scanners.

Large orders: Canon may offer deeper discounts for large one-time orders on a case by case basis. Canon is willing to discount single orders exceeding \$50,000.00 a minimum of 2%-5% depending on models/configurations.

Orders are to be Issued to:

Canon U.S.A., Inc.,
c/o Dealership Name
P.O. Box 6517
Arlington, VA 22206

Each Purchase Order must reference the **University of Florida Contract #ITN07DD-162YC**.

Orders are to be sent to GMD_Government_Orders@cusa.canon.com

Payment Address:

Payments shall be made payable to Canon U.S.A., Inc. only and no other name shall appear for payment. All payments are to be mailed to:

Purchase Remittance Address:	Lease Remittance Address:
Canon U.S.A., Inc.	Allied Capital Lease Administration
P.O. Box 841023	100 West Monroe Street Suite 706
Dallas, TX 75284-1023	Chicago, IL 60603

U of FL Purchasing cards accepted. Please call 1-800-323-9170 for credit card purchases.

Delivery/Installation: Canon will deliver all products F.O.B. Destination within 1-30 days after receipt of the purchase order in Canon's Arlington, Virginia office. Canon has complete responsibility for the items or system until it is in place and working. Canon will provide items on a furnished and installed basis. Delivery of equipment will be coordinated so that items or systems will be delivered directly to the installation site to minimize the risk of damage and avoid double handling.

Supplies: All consumable supplies, except paper, is to be provided by Canon's Dealer at no charge to the University of Florida.

Central Dispatch Center: Canon will provide a Central Dispatch Center for all service and supply calls. The following number has been reserved for the University of Florida for service and supply calls: 866-77 CANON also known as (866) 772-2666. Canon will provide the local dealer with a machine label for the dealer representative to affix to the machine showing the above Central Dispatch Phone Number.

Leasing: Lease factors may change on a semi-annual basis.

Maintenance: Please see page 8 for Maintenance terms and conditions.

Purchase Order Terms and Conditions

UNIVERSITY OF FLORIDA PAYMENT TERMS

1. BY ACCEPTING A UNIVERSITY OF FLORIDA PURCHASE ORDER THE VENDOR AGREES TO THE FOLLOWING TERMS AND CONDITIONS. The University of Florida requires that a vendor have a Purchase Order or a PO number issued by a representative of Purchasing and Disbursement Services before shipping any merchandise. The purchase order number must be shown on all invoices.

All payments made by the University of Florida are subject to University Policy and Rules as approved by the University's Board of Trustees.

2. It is the policy of the University that invoices on properly accepted goods or services will generally be paid within 30 days of receipt of the invoice. "Properly accepted" means receipt, inspection, and approval of the goods or services, except that in the case of a bona fide dispute the voucher shall contain a statement of the dispute and authorize payment only in the amount not disputed.

- a. For the purposes of determining the receipt of invoice date, the department is deemed to receive an invoice on the date on which a correct and accurate invoice is first received at the location designated by the University.
- b. The University is deemed to have received an invoice on the date of the invoice if the department has failed to annotate the invoice with the date of receipt at the time the department actually received the invoice or failed at the time the order is placed or contract made to designate a specific location to which the invoice must be delivered.
- c. The University may make partial payments to a contractor upon partial delivery of goods or services or upon partial completion of construction when a request for such partial payment is made by the contractor and approved by the Controller.
- d. Travel and other reimbursements to University officers and employees must be paid in the same timeframes and process as payments to vendors under this section.
- e. This section does not apply to payments made to State agencies or other governmental entities within the State of Florida.
- f. All purchasing agreements between the University and a vendor shall include a statement of the vendor's rights. The vendor's rights shall include being provided with the telephone number of the vendor ombudsman within Purchasing and Disbursement Services.
- g. Invoices received from vendors that have failed to supply the University with a complete and accurate W-9 or other form that provides all necessary data to determine 1099 status will be deemed insufficient for payment until such information is received.

OTHER TERMS

1. The nondiscrimination clause contained in Section 202, Executive Order 11246, as amended by Executive Order 11375, relative to Equal Opportunity for all persons without regard to race, color, religion, sex, or national origin, and the 38USC4212 Section 503 - Rehabilitation Act of 1973, Title 1 of the Americans with Disabilities Act of 1990 42USC12101, and the University's policy contained in 6C1-1.006, Administrative Procedures Act, relative to Sexual Harassment, are incorporated herein.
2. This statement applies to goods and services certified as available from PRIDE (Prison Rehabilitative Industries & Diversified Enterprises, Inc.). It is expressly understood and agreed that any articles which are the subject of, or required to carry out this contract shall be purchased from the corporation identified under Chapter 946, F.S., in the same manner and under the same procedures set forth in Section 946.15(2), (4), F.S.; and for purposes of this contract the person, firm, or other business entity carrying out the provisions of this contract shall be deemed to be substituted for this agency insofar as dealings with such corporation are concerned.
3. The University of Florida is an equal opportunity institution and, as such, encourages the use of Certified Minority Businesses (CMBE), Small Businesses / Small Disadvantaged Businesses in the provision of construction-related services. CMBEs should have a fair and equal opportunity to compete for dollars spent by the University of Florida to procure construction-related services. Competition ensures that prices are competitive and a broad vendor base is available. CMBE-related information shall be sent to the Division of Small Business and Vendor Diversity Relations, PO Box 115250, Elmore Hall, Room 106, Gainesville, Florida 32611, Attn: Ms. Faylene Welcome.

4. In compliance with Code of Federal Regulations, 29CFR1910.1200 if this purchase order involves the shipping of any item designates as a toxic substance such shipment must be accompanied by a Material Safety Data Sheet (MSDS). A toxic substance is designated as any chemical substance or mixture in gaseous, liquid, or solid state, which can cause harm to the human body.
5. The vendor certifies the Company's Directors and/or Principal Officers are not employed and/or affiliated with the University of Florida, unless a current Report of Specified interest form has been approved.

SPECIAL TERMS AND CONDITIONS

The University of Florida, Board of Trustees, has entered into an agreement with Canon USA, Inc. This order is entered into with the vendor to further the performance of the work required in that agreement. When interpreting applicable FAR provisions, "Government," or "Government Representative," or "Contracting Officer" will refer to the University of University's Associate Director of Purchasing. The term "Contractor" refers to the Vendor hereunder.

By accepting this order, Vendor agrees to furnish the materials, supplies, or services covered by this order, and to be bound by the terms and conditions set forth in the order, and these special terms and conditions. The applicable FAR sections and Department of Defense Supplement to the FAR are incorporated by reference into the contract, and have full force and effect. The complete text of each clause is available and will be provided upon request. The FAR provisions in effect at the time of this order govern,

- a. The following provisions of the Federal Acquisition Regulations (FAR) apply regardless of the amount of this order:

Anti-Kickback Procedure	52.203-7

Security Requirements When the subcontract involves access to classified information	52.204-2
Special Prohibition of Employment If the subcontract amount exceeds \$25,000. (DOD only)	252.203-7001

The University reserves all administrative, contractual, and legal remedies against the contractor or vendor who breaches any of the contract terms.

MASTER AGREEMENT - COPYING EQUIPMENT LEASE PROVISIONS (36 and 60 month lease terms)
Lease Factors may change on a semi-annual basis.

All University of Florida ("Lessee") departments are authorized to initiate requests for the lease of the types of copying equipment described on Exhibit A, attached hereto and incorporate herein by reference, which leases will be effective upon issuance of a purchase order (PO) by the University's Purchasing Division referencing the University of Florida ITN for Multifunctional and Specialty Application Copiers, #07DD-162TC and acceptance of such Purchase Order by Vendor. The University's ITN contract terms and conditions, the purchase order terms and conditions (located on pages 3-5), and this document will constitute the complete agreement regarding such leases (the "Equipment Copier Lease Agreement") and no addenda thereto or other agreements shall alter or vary the terms and conditions of the same, including without limitation, the equipment manufacturer's or its agents standard lease agreement form, unless expressly authorized by the University's Purchasing Division. At a minimum, the PO shall provide the following information: Leased Item(s) make and model, Initial Lease Term or Extension Term, Basic Rent, Location of Equipment, UF Contract Number, Authorized Signatures, and other information as necessary to complete and satisfy this agreement.

I. DEFINITIONS.

The following terms shall have the following meanings for all purposes of this Lease:

- A. "Acceptance Date" means the date on which Lessee accepts installation of Leased Items on a particular PO. Lessee's acceptance is conditioned upon satisfactory completion of such acceptance tests as have been agreed to by Lessor and Lessee.
- B. "Basic Rent" means during the Lease Term, the lease payment set forth in the University's PO for the Leased Items described therein, including, as applicable, the number of payments, number of copies included and/or cost per copy charge.
- C. "Initial Lease Term" means the term set forth in each PO for which the Lessee shall be obligated to pay the Basic Rent, with respect to Leased Items described therein. In all events, the Initial Lease Term shall commence on the Acceptance Date and expire no later than date which is five (5) years after the Acceptance Date.
- D. "Leased Item(s)" shall mean the equipment (including, without limitation, copier, computer hardware, firmware and software) and features, together with all replacements, parts, additions, attachments and accessories incorporated therein as described in the PO.
- E. "Lease Term" shall mean the Initial Lease Term and any Extensions Terms resulting from Lessee's exercise of an extension option.
- F. "Lessee" shall mean the University of Florida.
- G. "Lessor" shall mean Canon U.S.A., Inc.

II. LEASE PROVISIONS.

- A. **TERM:** Lessor hereby leases to Lessee, and Lessee hereby leases from Lessor, the Leased Item(s) for the Lease Term. It shall be the responsibility of the Lessor to remove the Leased Item(s) within 10 days after the end of the Lease Term.
- B. **BASIC RENT:** Lessee shall pay the Basic Rent set forth in applicable PO to Lessor during the Lease Term at the address provided by Lessor. The Basic Rent shall be payable monthly, in arrears, pursuant to Section 215.422, Florida Statutes. The rent for any partial month shall be prorated on the basis of a thirty (30) day month. Lessor shall pay any applicable federal, state or local sales, use or other taxes upon the rents payable hereunder.
- C. **EXTENSION OPTIONS:** Provided Lessee is not in default under this lease agreement beyond applicable notice and cure periods, Lessee may renew the lease, with respect to any or all Leased Items covered by the University's PO, for three (3) month periods (each, an "Extension Term"). Lessee's extension options are subject to the following terms and conditions:
 - 1. Lessee must notify Lessor of its exercise of the option at least thirty (30) days prior to the expiration of the Initial Lease Term or Extension Term, as applicable; and
 - 2. The Basic Rent during such Extension Term shall be the lesser of: (i) Fair Market Rental Value of the Leased Items as of commencement of the Extension Term; or (ii) the Basic Rent as of the expiration of the Initial Lease Term or Extension Term, as applicable. All other terms of the Lease agreement shall remain unchanged. Fair Market Rental Value shall be determined by agreement of Lessor and Lessee or, if they cannot agree, then by an independent appraiser selected by Lessee and satisfactory to Lessor. The cost of such appraisal shall be borne equally by Lessor and Lessee.

- C. **EXTENSION OPTIONS (continued)**
3. The foregoing may NOT be accomplished without prior approval of the University Purchasing Division, and the following conditions must be met:
 - a. Prices are recalculated at the time of exercise of the extension option using the equipment depreciated value and the estimated value at the expiration date of the Extension Term. (Pricing to include in & out charges, rigging, accrued equity and any other cost associated with the acquisition.)
 - b. Except for the Basic Rent, the Equipment Copier Lease Agreement shall apply during each Extension Term.
- D. **RISK OF LOSS OR DAMAGE:** The Lessee shall be relieved from, and the Lessor hereby assumes, all property risks including: loss or damage to all Leased Item(s) during the periods of transportation, installation, and the Initial Lease Term or Extension Term except, and only to the extent permitted under 768.28, Florida Statutes, when loss or damage is due to the negligent acts of the Lessee. In the event a Leased item(s) is damaged or destroyed and therefore may not be used for Lessee's intended purposes, in its reasonable discretion, the PO applicable to such Leased Item(s) shall terminate as of the date of the damage or destruction and the Basic Rent shall be prorated between the parties as of such date.
- E. **CANCELLATION:**
1. The obligations of the Lessee hereunder are subject to the availability of funds lawfully appropriated annually for its purposes by the Legislature of the State of Florida. The Lease Term may be canceled at any time due to non-appropriation of funds to Lessee or nonperformance by the Lessor. A thirty (30) day cancellation notice will be required of the Lessee in writing.
 2. Upon cancellation of a lease agreement by the Lessee the Leased Item(s) will be picked up by the Lessor or their authorized service dealer/representative at the Lessor's expense.
- F. **MISCELLANEOUS:** The provisions, terms, or conditions of this Lease shall not be construed as a consent of the State of Florida to be sued because of said leasehold.

This agreement may be unilaterally cancelled at any time by Lessee for refusal by Lessor to allow public access to all documents, papers, letters or other materials, associated with this agreement, subject to the provisions of Chapter 119, Florida Statutes, and made or received by Lessor in conjunction herewith.

UNIVERSITY OF FLORIDA MAINTENANCE TERMS AND CONDITIONS

Maintenance: Canon's Dealer shall provide full coverage maintenance and supplies including Toner and Staples, excluding paper. Canon's Dealer will be responsible for installation, delivery, start-up kits, activation, labor and materials of new equipment at no cost to the University. Canon's Dealer shall provide all software necessary for the functionality of the copier at no cost to the University. The maintenance charge includes full coverage maintenance, preventative maintenance, all service calls and replacement of defective or worn parts, except those parts bid separately under materials for the repairs sections and all consumable supplies, including staples and exclusive only of paper. Maintenance shall be billed quarterly. At no time will the University pay for or reimburse the Canon Dealer for travel costs. The copier failure rate may not average more than (2) malfunctions per month requiring service corrections. Machines which develop a trend or require an excessive number of service calls shall be reported by the using departments to the Purchasing Division for review. Machines which average two (2) malfunctions within a 30 days period may be required to be replaced by Canon at the University's discretion.

Service Response Time: Canon's Dealer will be on site within four (4) working hours after receiving calls for service. Working hours are defined as 8:00 am to 5:00 pm, except Saturday, Sundays and University holidays.

Loaners: in the event that a unit is not in good working condition for 24 hours of a service request, the customer shall be provided a loaner machine of similar functionality and specifications by the Canon Dealer at no additional charge and be reported to Purchasing for remediation review.

Maintenance Response Time and Remedial Maintenance

CANON is equipped with a computerized dispatch center. Please call (1-866-772-2666) for service or supplies. The authorized government person placing the service call would identify the copier in need of repair by serial number. Identification details (i.e. building, room number, etc.) and a telephone number along with a description of the problem or symptom would be communicated. All service calls are automatically logged with a time record established. All technicians are equipped with pagers, cellular telephones or can be contacted at their known location. This rapid communication system ensures the service technician is dispatched to the customer location armed with timely and accurate information concerning the affected copier.

Upon arrival and completion of the service call, the technician notifies the dispatcher. This procedure allows for accurate recording of response and "fix" times. This information is continually monitored to assure maintenance response time compliance and customer satisfaction.

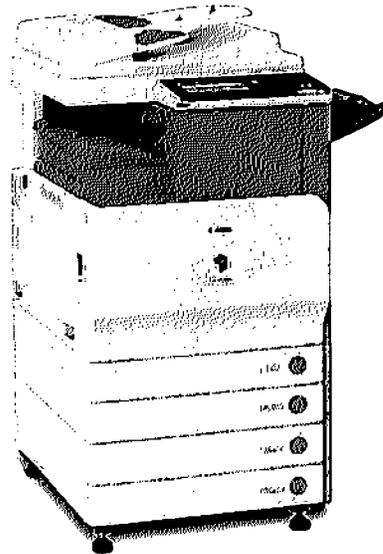

To achieve the above service response requirements, a sufficient number of technicians and alternates will be available at all times to ensure a smooth, orderly and prompt service response.

Periodic Maintenance

CANON publishes service guides for each copier engineered and manufactured. These comprehensive technical guides emphasize product design features, specifications, service features, service policy, and suggested periodic maintenance and replacement parts.

CANON recommended periodic maintenance is provided by CANON Service Technicians on an on-going basis during scheduled maintenance. Periodic maintenance will be performed in accordance with CANON's periodic servicing recommendations for each machine/model and will consider factors such as monthly usage, environmental conditions and job run length in determining frequency.

Color imageRUNNER C2550

imageRUNNER C2550 pictured w/ optional accessories

The Color imageRUNNER C2550

Achieving high productivity from your office multifunction system becomes a reality when your office is powered by the Canon Color imageRUNNER C2550 device. With robust functionality, advanced print engine technology, superior paper handling, compact footprint, and internal finishing options, it's the ideal solution for business performance.

The Color imageRUNNER C2550 device includes a standard memory capacity of up to 1.5GB, an 80GB hard drive, and Canon's innovative MEAP® (Multifunctional Embedded Application Platform) technology for customized workflows. The device also enables efficient document distribution with Canon's Color Universal Send technology as standard, providing simultaneous dissemination of information to multiple locations, across the hall or around the globe.

KEY SPECIFICATIONS

Copy/Print Speed (LTR):	Monochrome: Up to 25 ppm Color: Up to 23 ppm
Maximum Paper Size:	12" x 18"
Multiple Copies:	1 – 999
Memory:	Standard 1GB RAM and 80GB Hard Disk
Engine Resolution:	600 x 600 dpi
Paper Capacity:	
Standard:	1,150 Sheets
Maximum:	4,950 Sheets
Warm-up Time:	38 Seconds after Power On
Power Requirements:	120V, 60Hz, 15A

FEATURES

- Canon's imageCHIP system architecture provides more speed and power for greater productivity
- Canon's proprietary PDF High Compression Mode makes more efficient use of your network and storage resources by significantly reducing the size of PDF files.
- Various finishing options available, including an internal finisher to maintain the compact design
- Choice of print options for corporate or demanding color environments
- Device management features, including controlling color usage with Department IDs and Access

Color imageRUNNER C2880 Series

imageRUNNER C3380 pictured w/ optional accessories

The Color imageRUNNER C2880 Series

The Color imageRUNNER C3380/ C2880 Series devices are full-color digital multifunctional solutions that allow users to leverage the full capabilities of Canon's Color imageCHIP system architecture, providing exceptional quality and performance.

The Color imageRUNNER C3380/ C2880 Series models operate at up to 33/28 ppm (letter), respectively, for black-and-white output and up to 30/26 ppm (letter), respectively, for color output.

The Color imageRUNNER C3380/ C2880 Series devices pack a great deal of productivity and technology into a convenient compact design.

They offer digital copying and Mail Box features, standard Color Universal Send and printing, and a choice of robust finishing options, all of which help meet the needs of evolving customer workflow environments.

Color imageRUNNER C4080

imageRUNNER C4080 pictured w/ optional accessories

The Color imageRUNNER C4080

The Color imageRUNNER C4080 device is a powerful digital multifunction system that offers fast, full-color and black-and-white output. Based on four-drum technology and Canon's imageCHIP system architecture for high quality and productivity, the Color imageRUNNER C4080 brings brilliant color and fast data processing and engine speeds to office users. With robust functionality, advanced print engine technology, superior paper handling, and professional finishing options, this system is the ideal solution for your office.

With standard Color Universal Send and a choice of three print controllers, this device is a complete solution that can be tailored to your office needs, whether you require office applications, demanding color projects, or high-end graphical output.

KEY SPECIFICATIONS

Copy/Print Speed (LTR):	Monochrome: Up to 40 ppm Color: Up to 36 ppm
Maximum Paper Size:	12" x 18"
Multiple Copies:	1 – 999
Memory:	Standard 1GB RAM and 80GB Hard Disk
Engine Resolution:	1200 x 1200 dpi
Paper Capacity:	Standard: 1,200 Sheets Maximum: 5,000 Sheets
Warm-up Time:	4 Minutes and 30 Seconds After Power On
Power Requirements:	120V, 60Hz, 15A

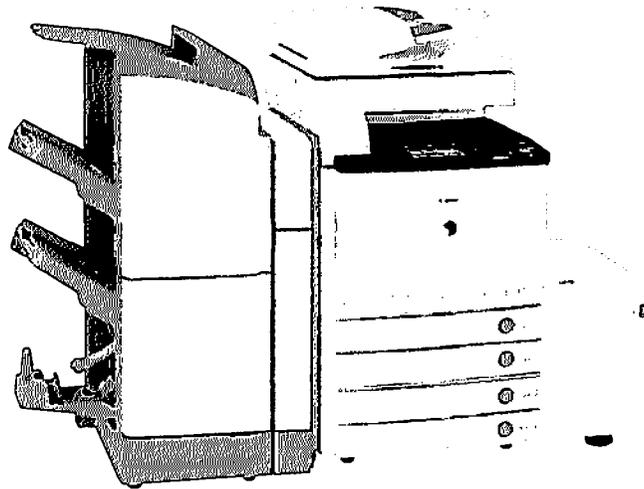

FEATURES

- Available in a "Base" or "i" model configuration to best suit your office needs
- Extensive document handling and paper supply and finishing options
- Choice of three print controllers for corporate or demanding color environments
- Device management features, including controlling color usage with department IDs and Access Management System

Notes

Color imageRUNNER C4080/C4580/C5185

- <1> Cassette Feeding Unit-Z2 or Plain Pedestal-E1 or E2 must be installed.
- <2> Finisher-W1 or Saddle Finisher-W2 must be installed.
- <3> Requires UFR II/PCL Printer Kit-N2.
- <4> Requires the additional 512 MB RAM.
- <5> Requires UFR II/PCL Printer Kit-N2 if printing web pages; requires PS Printer Kit-N2 if printing PDF files.
- <6> Requires Graphic Arts Feature Set v.2.0.
- <7> Required on the "i" models if attaching the imagePASS or ColorPASS.

To confirm pricing or place an order, Contact Canon Representative Jim Mercer at 954 218-0246 or visit: www.gmdflorida.com

Color imageRUNNER C5068/C5058

Color imageRUNNER C5068 w/ optional accessories

The Color imageRUNNER C5058/C5068

The imageRUNNER C5068/C5058 models deliver impressive, high volume, black-and-white letter-sized performance at speeds of up to 68/58 pages per minute (ppm), respectively, and color output when you need it at up to 16 ppm (letter).

For faster copying and capturing of black-and-white or color documents, the standard 100-sheet Duplexing Automatic Document Feeder can scan originals at speeds of up to 70 ipm (impressions per minute) at 300 dpi. And with high-capacity finishing options, professional output is available for any project—in black and white or with a touch of color for even greater appeal.

KEY SPECIFICATIONS

Copy/Print Speed (LTR):	Monochrome: Up to 68/58 ppm Color: Up to 16 ppm
Maximum Paper Size:	13" x 19"
Multiple Copies:	1 – 9,999
Memory:	Standard 1.5GB RAM and 80GB Hard Disk
Engine Resolution:	600 x 600 dpi
Paper Capacity:	Standard: 4,200 Sheets Maximum: 7,700 Sheets
Warm-up Time:	8 Minutes and 50 Seconds After Power On
Power Requirements:	120V, 60Hz, 16A

FEATURES

- Using the Access Management System option, administrators have powerful control over access to the device for greater security
- Embedded controller supports PCL 5c/6 and Canon's proprietary UFR II (Ultra Fast Rendering) language for exceptional printing performance, as well as an option for PostScript 3™ emulation.
- Job Block Combination feature enables you to combine different sets of documents into one on the device's control panel, insert tabs, and define settings such as paper type, finishing, and more.
- Canon's proprietary Color Universal Send technology is standard
- PDF Advanced Feature Set offers three powerful options to master the creation, distribution, and archiving of your documents

imagePRESS C7000VP

imageRUNNER C7000VP pictured w/ optional accessories

The imagePRESS C7000VP Digital Press

With the introduction of the new imagePRESS C7000VP digital press, Canon will once again revolutionize the color marketplace. The Canon imagePRESS C7000VP digital press is the next generation in digital printing technology that will redefine expectations of image quality, productivity, and versatility.

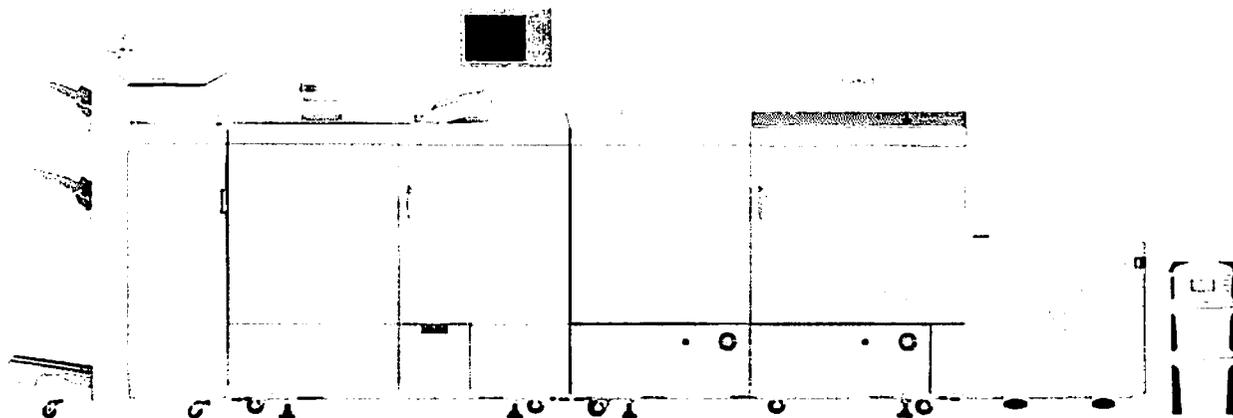

This is a powerful production engine built for high-quality, on-demand printing and value-added services, such as variable data printing. The imagePRESS C7000VP digital press produces output that rivals offset image quality while maintaining superior color consistency and production reliability.

With true 1200 x 1200 dpi color and black-and-white output at a consistent speed of 70 pages per minute (letter), regardless of weight, the imagePRESS C7000VP digital press is ideal for:

- Government printers looking to expand their services and revenue opportunities while offering customers uncompromised print quality;
- Quick printers and digital printers that want to increase production volume by offering enhanced image quality on a greater variety of paper stocks; and,
- In-plant facilities that need to maintain control over color printing costs, quality, and turnaround time.

For more detailed information about this product, please visit our website: www.usa.canon.com

imagePRESS C6000VP

imagePRESS C6000VP pictured w/ optional accessories

The imagePRESS C6000VP Digital Press

With the tremendous success of the imagePRESS C7000VP digital press for production printing, Canon continued its tradition of bringing world-class color-imaging expertise to new markets. The imagePRESS C6000VP digital press is built on the same core architecture as the Canon imagePRESS C7000VP digital press and priced to be more accessible to a broader range of printing operations.

The imagePRESS C6000VP digital press is ideal for mid- to large-size production environments that want a full-featured digital press that makes good business sense. This digital press gives you the:

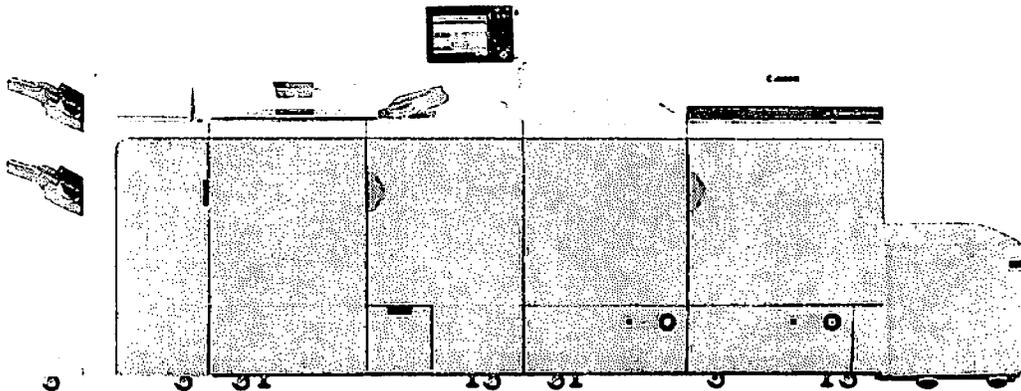

- power to handle increasingly complex job requirements
- speed and reliability to meet tight deadlines
- image quality to satisfy the most discriminating customers
- versatility to keep pace with evolving production needs

Featuring:

- Superb Image Reproduction
- Output That Feels Like Offset
- Amazing Color Consistency
- “On-the-Fly” Paper and Toner Replacement
- Automatic Duplexing and Perfecting
- In-Track Registration and Timing Sensors
- Multifeed Detection Technology
- Precision Front-to-Back Registration
- Advanced Feeding Technology
- Multiple Finishing Options
- Hard-copy Reproduction

imagePRESS C6000

imagePRESS C6000 pictured w/ optional accessories

The imagePRESS C6000 Digital Press

Canon's heritage of engineering excellence continues with the addition of the imagePRESS C6000 digital press to our line of digital presses for the production printing marketplace.

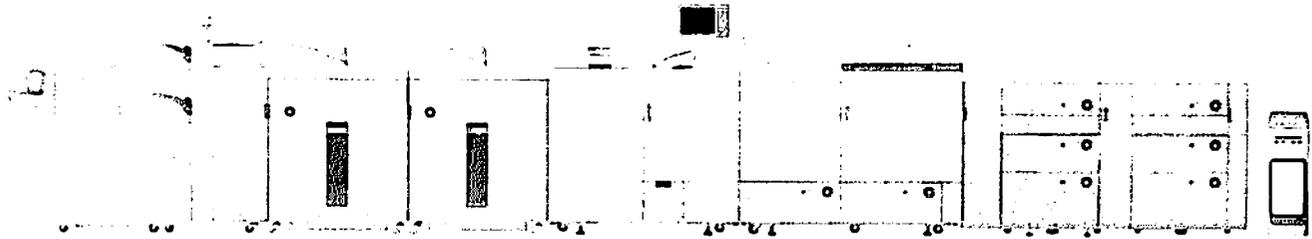

At a maximum print speed of 60 pages per minute, the imagePRESS C6000 digital press reflects our commitment to enabling businesses of all sizes to capitalize on our years of intensive R&D in digital color imaging and document reproduction.

The imagePRESS C6000 digital press produces output that rivals offset quality, maintains superior color consistency, and empowers you to fulfill a wide range of jobs, including saddle-stitched booklets, hard-copy reproductions, direct mail pieces, and marketing collateral.

Featuring:

- Superb Image Reproduction
- Output That Rivals Offset
- Amazing Color Consistency
- "On-the-Fly" Paper and Toner Replacement
- Automatic Duplexing and Perfecting
- In-Track Registration and Timing Sensors
- Multifeed Detection Technology
- Precision Front-to-Back Registration
- Advanced Feeding Technology
- Multiple Finishing Options
- Hard-copy Reproduction

imagePRESS C1

imagePRESS C1 pictured w/ optional accessories

The imagePRESS C1 Digital Print System

The imagePRESS C1 digital print system leverages the needs of government print shops, marketing offices, and general office users. Outstanding color output will be produced at up to 14 ppm and black-and-white output at 60 ppm.

Whether you use this device for color-accurate proofing, as an on-demand, short-run press, or as a short-run companion printer to an offset press, the imagePRESS C1 system represents a giant leap forward from the groundbreaking CLC products. The imagePRESS C1 model builds on Canon's next-generation imagePlatform for imagePRESS architecture, offering both traditional and new capabilities that allow you to accomplish the most complex, advanced document handling with ease.

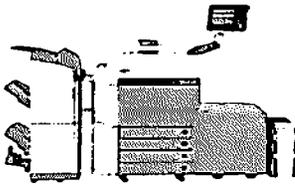

KEY SPECIFICATIONS

Copy/Print Speed (LTR):	Monochrome: Up to 60 ppm Color: Up to 14 ppm
Maximum Paper Size:	13" x 19"
Output Sizes:	3-5/16" x 5-7/8" to 13" x 19"
Multiple Copies:	1 – 999
Memory:	Standard 1GB RAM and 80GB Hard Disk
Engine Resolution:	1200 x 1200 dpi (Continuous Tone)
Paper Capacity:	Standard: 2,200 Sheets Maximum: 5,800 Sheets
Acceptable Paper Weights:	
Cassettes:	17 lb. Bond - 110 lb Index (64gsm - 209gsm) and Transparency
Stack Bypass:	17 lb. Bond - 140 lb Index (64gsm - 256gsm) and Transparency
Warm-up Time:	11 Minutes, 40 Seconds After Powering On
Power Requirements:	120V AC, 60Hz,
Power Plugs:	15A, 20A (2 Total plugs for Main Unit)

FEATURES

- Outstanding image quality that complements offset print
- Remarkably consistent color that meets today's colorcritical demands
- Media versatility that keeps a focus on image quality

imagePROGRAF 5100

The 12-color 17" imagePROGRAF iPF5100 pigment ink large-format printer is designed to produce professional photographic prints at unparalleled speeds with outstanding archival image quality. This printer has one of the industry's largest color gamuts with Canon's 12-color ink set featuring LUCIA pigment inks. Engineered for speed and advanced image quality, the iPF5100 printer uses Canon's L-COA controller and a dual print-head system to lay down ink quickly and accurately.

The iPF5100 printer offers three media feed options—a front-loading cassette for pre-cut sheets, a rear manual feed, and a front straight path manual feed for thicker media up to 1.5mm. A dual print-head system features a total of 30,720 ink nozzles (2,560 nozzles per color) for rapid print speeds and a maximum resolution of 2400 x 1200 dpi with a four picoliter droplet size.

KEY SPECIFICATIONS

Type:	17" Graphic Arts Printer (Pigment)
Print Method:	Bubble Jet On-Demand
Resolution:	2400 x 1200 dpi (Maximum)
Nozzles Per Color:	2,560 Nozzles
Droplet Size:	4 Picoliter/Each Color
Interface:	USB 2.0 10Base-T/100Base-TX
Ink Tank Type:	LUCIA Pigment-based Ink
Ink Tank Capacity:	130ml Each

imagePROGRAF 6100

The imagePROGRAF iPF6100 printer is ideal for photography, proofing, and professional graphics applications. The 24" iPF6100 printer is equipped with a 12-color LUCIA pigment ink set, using new formulations and better ink drop control for improved dot patterns and reduced dot graininess. These formulations additionally reduce bronzing and provide better ink adhesion for improved scratch resistance.

This new addition to Canon's large-format portfolio provides one of the industry's largest color gamuts with Canon's 12-color ink set featuring LUCIA pigment inks with Red, Blue, Green, Cyan, Photo Cyan, Magenta, Photo Magenta, Yellow, and reformulated Black, Matte Black, Gray, and Photo Gray.

imagePROGRAF 9000S/8000S

Canon's 60" imagePROGRAF iPF9000S and the 44" iPF8000S printers are powerful systems specifically built to meet the demands of the highly competitive production printing marketplace. These printers are ideal for users who need to produce more output in less time. With high-speed throughput, an 80GB hard drive, borderless printing, and other features that maximize productivity, these printers increase overall production capacity and reduce job turnaround time. The new innovative 8-color LUCIA ink configuration helps increase print efficiency and creates vibrant colors and tones that are ideal for production graphics applications.

Speed without quality has little value, but with a built-in calibration feature and other advanced quality control functions such as the L-COA processor, these production grade printers are built to deliver consistently superior results without sacrificing speed. They're up to 40% faster than any other imagePROGRAF Graphic Arts printer, making them ideal for anyone who needs to increase the capacity, productivity, and versatility of their large-format printing services.

imagePROGRAF 9100/8100

With the imagePROGRAF iPF9100/8100 large-format printers, you can express your creativity—oversized and uncompromised.

Now you can bring your biggest, most ambitious projects from inspiration to realization with uncompromised accuracy, extraordinary detail, and spectacular color. Built to put advanced printing technologies into the hands of artists and photographers, the new 60" iPF9100 (shown above) and 44" iPF8100 printers will help you fulfill your creative potential like never before. Equipped with a pallet of 12 colors that includes Cyan, Photo Cyan, Magenta, Photo Magenta, Yellow, Red, Green, and Blue, plus four monochromatic shades - Black, Matte Black, Gray, and Photo Gray - these printers deliver a broader gamut for greater tonal range and more precise reproduction of color.

imagePROGRAF 605/720

imagePROGRAF® iPF605

The 24-inch imagePROGRAF iPF605 large format printer is built for both the technical document user as well as general office use. The streamlined imagePROGRAF iPF605 prints from both roll media printing as well as cut sheet through the front loading manual feed. Without a cassette tray, the imagePROGRAF iPF605 printer is aimed to be an affordable solution for personal and small workgroup users producing large format technical drawings. The printer's small footprint fits nicely into a smaller work environment, while producing uncompromised print quality seen on Canon's larger printer models.

imagePROGRAF® iPF720

The 36-inch imagePROGRAF iPF720 printer with a built-in 80GB hard drive for networked workgroups is designed for the technical document market as well as general office use. The imagePROGRAF iPF720 includes Canon's workflow oriented Printer Driver, HDI Driver, Digital Photo Front-Access software as well as the new PosterArtist Lite-Poster Creation Software. PosterArtist Lite is based on the previously introduced PosterArtist 2007 software, to give users the ability to quickly and easily create professional large format prints.

imageRUNNER 7100VP Series

The imageRUNNER 7100VP Series

The productivity powerhouses, the imageRUNNER Pro 7100VP digital press series incorporates a Web-browser-based interface, a new standard for image quality, and an extensive range of finishing options designed to significantly improve your productivity.

A three-drawer, 4,000-sheet paper supply, an interactive touch-screen interface, and a 3,000-sheet finisher ship standard with the device. Powered by a state-of-the-art print controller that's based on the latest Sun computing platform, the imageRUNNER Pro 7100VP digital press series' network performance sets a new benchmark for productivity within high-volume application environments. Integrating standard 10/100 Ethernet connectivity, high-conversion speeds in the Raster Image Processor (RIP), and electronic job spooling in the Marking Image Path (MIP), it delivers workflow performance you never thought possible.

The imageRUNNER Pro 7110VP digital press series offers a host of in-line finishing capabilities designed to maximize productivity with minimal operator involvement. Whether documents need collating, saddle-stitched booklet-making, post-process inserting, bookbinding, or more, the imageRUNNER Pro 7100VP digital press series can complete the task. For paper-intensive environments, the optional scanners deliver high-volume, high-quality scanning support for duplication of even the most challenging hard-copy input. The imageRUNNER Pro 7100VP digital press series' feature-rich engine delivers outstanding quality, reliability, and performance.

KEY SPECIFICATIONS

Print Sizes:	7" x 8" to 14.33" x 18.5"
Print Speed (LTR):	Monochrome: Up to 150/138/125/110 ppm
Paper-feeding:	Up to 9 Paper Trays (12,000 Sheets Total) Optional Post-Process Inserter (4,000 Sheets)
Power Consumption:	5,700 Watts
Power Requirements:	200 – 240 VAC, 60/50Hz

FEATURES

- 600 x 600 dpi at 256 grayscale
- Standard Automatic Tray less Duplexing
- Supports up to 150 lb. Index
- Standard Finisher/Stapler with 100-sheet capacity
- SunSM System Controller
- Network Connectivity (Ethernet 10/100)
- Intelligent Queuing System
- PostScript® 3™, PDF, TIFF, optional PCL

imageRUNNER 7086/7095/7105

The imageRUNNERS 7095/7105 are perfectly suited for central reproduction departments, print-for-pay establishments, print-on-demand applications, and large agencies where rapid document capture and production are required.

These devices deliver unmatched productivity, durability, and reliability for total in-house document production with robust input, throughput, and advanced output capabilities, including support for high capacity stacking, booklet-making, in-line perfect binding, and professional punching capabilities. And the devices leverage Canon's superior image quality for outstanding-looking output on every page.

Plus, the imageRUNNER 7095/7105 devices feature Canon's MEAP (Multifunctional Embedded Application Platform) technology, a host of Internet-enabled capabilities, and greater security measures for online information sharing and storage needs. These devices offer the tightest possible integration across entire secure networks so you can streamline costs and improve efficiency.

imageRUNNER 7105 pictured above w/ optional accessories

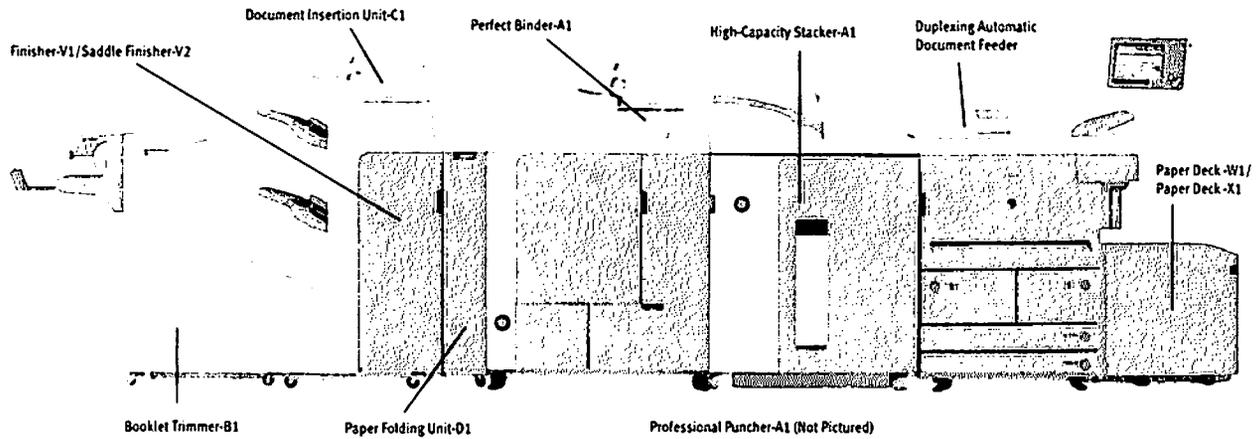

KEY SPECIFICATIONS

Print Speed (LTR):	
iR 7095	Monochrome: Up to 95 ppm
iR 7105	Monochrome: Up to 105 ppm
Memory:	40GB Hard Disk; 1GB RAM
Output Resolution:	1200 x 600 dpi for Copy (Interpolated) 1200 x 1200 dpi (UFR II, PCL 6, and PostScript) 2400 x 600 dpi (Interpolated) (PCL)
Paper Capacity:	Standard: 4,150 Sheets; Maximum: 7,650 Sheets
First-copy-out Time:	
iR 7095/7105	2.8 Seconds
Warm-up Time:	6 Minutes or Less (from Sleep Mode)/6 Minutes or Less (from Main Power Off)
PDL Support:	Multi-PDL Printer Kit-H2: UFR II, PCL 5e/6; Adobe PostScript 3 Emulation
imagePASS:	Adobe PostScript 3, PCL 5e/6

FEATURES

- Robust input and throughput features, plus output options that include perfect binding, professional punching, high-capacity stacking, saddle-stitched booklet finishing, and paper folding
- External optional imagePASS print controller to meet high-volume printing applications with support for true Adobe PostScript 3 printing and support for hot folders and EFI Impose
- Maximize productivity with the optional EFI MicroPress print controller
- Document distribution capabilities via optional Universal Send with optional enhanced features such as PDF Encryption, PDF (OCR), and Digital and User Signature PDF modes
- Canon software utilities include Remote UI, imageWARE Suite, eCopy Suite

imageRUNNER 5000 Series

(imageRUNNER 5065 and 5075 Shown with optional accessories)

The imageRUNNER 5000 Series

The imageRUNNER 5075/5065/5055/5050 devices have been infused with the latest technology and security advancements to meet the expanding needs of today's high-volume departments and light-production environments. Powered by Canon's imageCHIP system architecture, these next generation of advanced Canon imageRUNNER devices are designed to provide exceptional performance and reliability.

The imageRUNNER 5075/5065/5055/5050 devices offer a full range of document handling capabilities such as a standard Single Pass Duplex Scanner/Feeder, saddle-stitched finishing, 2/3-hole punching, a document insertion unit, and the ability to C- and Z-fold documents. There's also support for advanced digital copying, network scanning, Mail Box features, a choice of print controller options, single-line fax capabilities, and the ability to distribute electronic information across a digital landscape with Universal Send.

Plus, the imageRUNNER 5075/5065/5055/5050 devices feature Canon's MEAP (Multifunctional Embedded Application Platform) technology, a host of Internet-enabled capabilities, greater security measures for online information sharing and storage needs, and tight integration across entire corporate networks so you can streamline costs and improve efficiency.

Only the IR5055, 5065 and 5075 are EnergySTAR™ compliant

KEY SPECIFICATIONS

Copy/Print Speed (LTR):	Up to 75/65/55/50 ppm
Memory:	40GB Hard Disk and 1GB RAM
Max. Print Resolution:	1200 dpi x 1200 dpi* 2400 dpi x 600 dpi (Interpolated)**
Paper Capacity:	Standard: 4,150 Sheets Maximum: 7,650 Sheets
First-copy-out Time:	5075: 3.1 Sec. (from Platen Glass) 5065/5055/5055: 3.3 Sec. (from Platen Glass)
Warm-up Time:	30 Seconds or Less (from Sleep Mode or Main Power Off)
Fixing System:	Induction Heating Fusing System
Power Requirements:	120V, 60Hz, 20A
PDL Support:	UFR II/PCL/PS Printer Kit-R2: UFR II, PCL 5e/6, PostScript 3 Emulation
imagePASS-S2:	PCL 5e/6, Adobe PostScript 3

* Only available with certain page description languages.

** Available on the imageRUNNER 5050 only

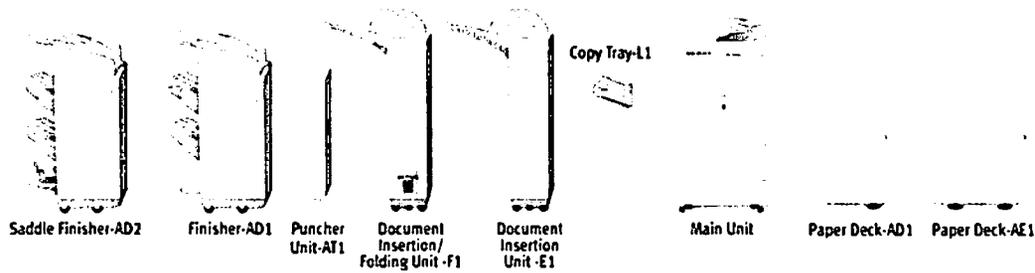

FEATURES

- Available support for actual 1200 x 1200 dpi print resolution and Canon's exclusive Fine Character and Edge Technology (FCET) for outstanding image quality on every page
- Advanced document handling and production including Single Pass Duplex Scanning technology, expandable paper capacities, and professional-level finishing support
- Choice of an embedded print controller option for corporate office needs or an external imagePASS-S2 controller option for light production and graphic-intensive environments
- Optional Super G3 Fax capabilities
- Powerful document workflow capabilities provided through optional Canon Universal Send and imageWARE Suite
- Employ Canon's Induction Heating Fusing (IH) System for energy efficiency and fast warm-up times
- Optional wireless connectivity with the Wireless Network Interface Adaptor NB-W1

imageRUNNER 3000 Series

(imageRUNNER 3045 Shown with optional accessories)

The imageRUNNER 3000 Series

Redefine office workflow with the Canon imageRUNNER 3045/3035/3030/3025 devices. These models are powered by Canon's imageCHIP system architecture, offering superior productivity, exceptional multifunction performance, and improved reliability. Each model is infused with powerful tools that facilitate efficient document imaging, sharing, and management, along with a host of data storage and security advancements to protect confidentiality.

Designed for departments and workgroups, the imageRUNNER 3045/3035/3030/3025 devices support advanced digital copying and Mail Box features, network printing and scanning functions, Super G3 fax capabilities, and the ability to send electronic information across a digital landscape with Universal Send. Plus, the imageRUNNER 3045/3035/3030/3025 models offer Canon's optional Workflow Composer function. This innovative feature helps transform cross-function, multistep tasks into simple "pushbutton" workflows for each individual user, offering a new level of operational efficiency.

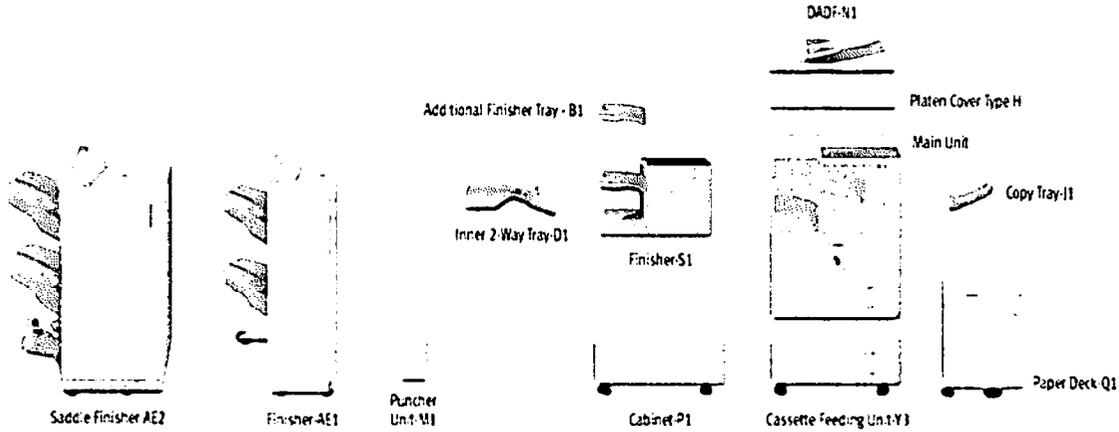

KEY SPECIFICATIONS

Copy/Print Speed (LTR):	Up to 45/35/30/25 ppm
Memory:	Standard: 512MB RAM and 20GB Hard Disk Optional: 256MB RAM (768MB RAM Maximum)
Resolution:	600 x 600 dpi 1200 x 600 dpi for Copy (Interpolated) 2400 x 600 dpi for Print (Interpolated)
Paper Capacity:	Standard: 1,150 Sheets Maximum: 4,950 Sheets
First-copy-out Time:	3045/3035: 3.9 Sec. (from Platen Glass) 5.9 Sec. (from Feeder) 3030: 4.2 Sec. (from Platen Glass) 6.2 Sec. (from Feeder) 3025: 4.9 Sec. (from Platen Glass) 6.9 Sec. (from Feeder)
Warm-up Time:	10 Sec. or Less (from Sleep Mode) 30 Sec. or Less (from Main Power Off)
Fixing System:	RAPID Fusing System

FEATURES

- Standard Duplexing Automatic Document Feeder on the imageRUNNER 3045/3035 devices (optional on the imageRUNNER 3030/3025 devices)
- Choice of three finishers allows for professional-looking output with basic to advanced features
- Compact footprint including an internal finisher that provides stapling, optional hole-punching, and an optional second tray for sorting all within the original footprint
- Optional Single or Dual Line fax capabilities
- User-friendly operation for any office environment
- Complete suite of document distribution and management features
- Security and Accessibility features
- Powered by MEAP architecture for customized application development
- Improved operational efficiency with Workflow Composer option

imageRUNNER 2025i/2030i

(imageRUNNERS 2025i and 2030i)

The imageRUNNER 2030i/2025i

When it comes to enhanced productivity for workgroups, the Canon imageRUNNER 2030i/2025i models have no equal. These devices combine the smart multifunction capabilities that your department needs today while growing with you into the future through expandable functionality.

Producing crisp output at speeds of up to 30 and 25 pages per minute (letter), respectively, the compact yet powerful imageRUNNER 2030i/2025i models deliver the benefits of digital copying, network printing, Network TWAIN color scanning, and optional faxing, along with intelligent technologies and communications that help you save time, space and, most of all, document production and distribution costs.

Change the way you communicate with the flexibility provided by the standard Color Send technology of the imageRUNNER 2030i/2025i devices. Distribute black-and-white and color documents in popular PDF, TIFF, or JPEG file formats in one step. Plus, the Color Send feature supports Canon's innovative PDF High Compression Mode to minimize file sizes of color files, while maintaining the image quality. The ability to work smarter is well within your reach with the Canon imageRUNNER 2030i/2025i models.

KEY SPECIFICATIONS

Print Speed (LTR):	Monochrome: Up to 30/25 ppm

imageRUNNER 2022 series/2018 series

(imageRUNNER 2018 w/Optional Accessories)

The imageRUNNER 2022 series/2018 series

With the Canon imageRUNNER 2022/2018 models, even smaller workgroups can afford the sophisticated document production features needed for success. These devices combine the smart multifunction capabilities that your agency needs today while growing with you into the future through expandable functionality.

Capable of producing up to 1200 x 1200 dpi output at speeds of up to 22 and 18 pages per minute (letter), respectively, these compact yet powerful systems deliver the benefits of digital copying, network printing, color scanning, and optional fax features. Plus, flexible paper handling and finishing options can help you save time, space, and document production costs.

With the Canon imageRUNNER 2022/2018 devices, the ability to work smarter is well within your reach!

KEY SPECIFICATIONS

Print Speed (LTR):	Monochrome: Up to 22/18 ppm
Resolution:	600 x 600 dpi for Scan 1200 x 600 dpi (Interpolated) for Copy 1200 x 1200 dpi for Print*
Memory Capacity:	128MB RAM Std./256MB RAM Max.
Paper Capacity:	Standard: 2022: 580 Sheets 2018: 330 Sheets Maximum: 1,080 Sheets
Warm-up Time:	1 Second or Less (from Sleep Mode)** 14 Seconds or Less (from Main Power Off)**
Fixing System:	RAPID Fusing System
Power Requirements:	120V AC, 60 Hz, 4.6A

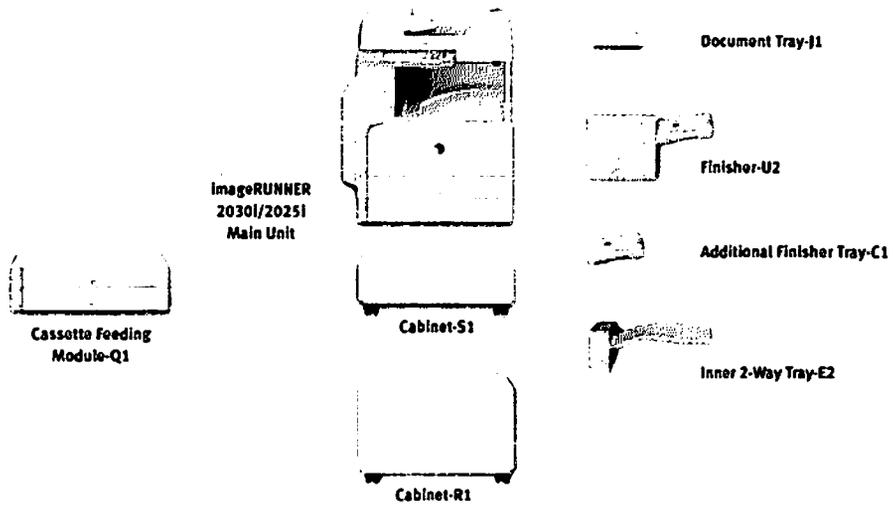

FEATURES

- Go beyond the features of basic single-function devices to empower users with the smart color scanning, network printing, and optional faxing capabilities of the Canon imageRUNNER 2022/2018 models.
- Even with their advanced features, these imageRUNNER models couldn't be easier to administer, with simplified tools for managing device access and helping to protect the security of your confidential information.
- Sacrificing productivity for a compact design is unnecessary with the imageRUNNER 2022/2018 devices. These systems are powered by Canon's imageCHIP Lite architecture and offer you a choice of paper handling and finishing options to best suit your needs.
- Whether a beginner or an advanced user, these Canon imageRUNNER devices are so easy to use and include electronic documentation to help facilitate operation.

imageRUNNER 1023 Series

(from left to right, imageRUNNERS 1023, 1023iF and 1023N)

The imageRUNNER 1023 Series

The imageRUNNER 1023 Series devices are the ideal choice for busy workgroups and hardworking small offices that require dependable performance every time, all the time. Operating at up to 23 ppm (letter), these compact desktop solutions will put affordable, multifunction capabilities within easy reach.

The imageRUNNER 1023iF device is the advanced model in the Series, and it provides all the necessary tools for the most demanding environments.

The device features full color-enabled document distribution features, powerful Super G3 faxing, and a 50-sheet Duplexing Automatic Document Feeder as standard. The imageRUNNER 1023N model supports digital copying, network printing, and color scanning features, along with the added convenience of a 50-sheet Duplexing Automatic Document Feeder. The platen-based imageRUNNER 1023 model delivers digital copying, high-quality laser printing, and color scanning capabilities.

So whether you're upgrading from older, slower technology or consolidating several pieces of equipment to save space and lower costs, the imageRUNNER 1023 Series devices are the right choice for you.

KEY SPECIFICATIONS

Image Server Memory	1023iF:	256MB RAM
	1023N/1023:	128MB RAM
Scan Resolution:	600 x 600 dpi	
Copy Resolution:	1200 x 600 dpi (Enhanced)	
Print Resolution:	1200 x 600 dpi (Enhanced)	
Standard Paper Capacity:	1 x 500-Sheet Paper Cassette (21 lb. Bond) 1 x 100-Sheet Stack Bypass (21 lb. Bond)	
Maximum Paper Capacity:	1,100 Sheets	
Copy/Print Speed:	Up to 23 ppm (LTR)	
First-Copy Time:	Less than 8 Seconds (From Platen Glass) Less than 12 Seconds (From DADF)	
Warm-Up Time	1023iF/1023N:	Less than 16 Seconds 1 Second (From Energy Saver Mode)
	1023:	Less than 13.5 Seconds 1 Second (From Energy Saver Mode)
Fixing System:	RAPID Fusing System	

FEATURES

- Compact, desktop design ideal for locations with limited space
- Standard Duplexing Automatic Document Feeder (imageRUNNER 1023iF/1023N only) and Automatic Trayless Duplexing
- Standard printing capabilities via UFR II LT and optional support for PCL 5e/6
- Standard full-color scanning capabilities via the USB 2.0 Port
- Standard Super G3 Fax capabilities (imageRUNNER 1023iF only)
- Support for Canon's device management utilities, including Remote UI

eCopy™

Requirements

eCopy Embedded server requirements

- Windows™ Vista™ Business and Enterprise Edition
- Windows XP™/2000/2003
- 512MB memory recommended
- Intel® Pentium® PC (2.0GHz)

eCopy Desktop minimum system requirements

- Windows Vista x86 (Business and Enterprise Editions), Microsoft® Windows XP with SP2 (or higher), Windows 2000 with SP4 (or higher)
- Intel Pentium based PC or equivalent is recommended; 800 MHz processor for Windows Vista; 300 MHz or higher processor for Windows XP and Windows 2000
- 512 MB RAM recommended for Windows Vista and for color images; 256 MB RAM or higher recommended for Windows XP and Windows 2000
- 320 MB free hard disk space for the application files and working space during installation

eCopy Desktop™

eCopy Desktop enables office workers to work faster and more efficiently with scanned documents as PDF files. It makes it easy to capture, combine, edit, and secure scanned documents through an intuitive, user-friendly interface.

As a result, users can retrieve, edit, and distribute original-quality scanned documents just as they would any other electronic files, improving personal productivity.

eCopy Desktop includes a comprehensive set of tools, including annotation, stamps, and optical character recognition (OCR), to enable business users to work with and distribute scanned documents as part of their existing electronic workflows.

Using eCopy Desktop, users can turn paper documents into scanned image files, combine them with documents from other applications, protect private information with permanent redactions, search for text within documents and network folders, insert bookmarks for easy navigation, sign documents electronically, and integrate documents with their e-mail, fax, and document management systems.

When Agencies need to:	eCopy Desktop delivers:
Enable users to be more productive in how they work with information from paper documents	A convenient scan inbox that makes it effortless to scan documents from an MFP or networked scanner directly to eCopy Desktop Editing and markup tools that allow for signatures, highlighting, notes, and text annotations. Bookmark capabilities to make documents easier to navigate Search pane for automated retrieval of PDFs, including full-text search Conversion of scanned documents to editable text with optical character recognition (OCR)
Combine paper and electronic files into a single PDF document	Document building to consolidate different document formats – paper or electronic – into a single PDF document Print to eCopy Desktop toolbar addin for Microsoft Office enables creation of high-quality PDFs with a single click Simple drag and drop Microsoft Office files to eCopy Desktop Thumbnail view lets users browse a multi-page document and re-arrange selected pages faster and easier than on paper
Secure documents to meet information policy requirements	Document security to prevent unauthorized viewing, printing or editing of PDFs Redaction capabilities to secure confidential information
Enable users to share scanned documents from their desktop	Distribution via integration with e-mail and fax systems Storage to popular document management systems
Expand the system to meet expanding document management requirements	Available third-party integration to distribute PDFs to other software applications An easy-to-use software development kit (SDK) for customization to meet specific business workflow requirements

Purchase/PVL

eCopy™ ShareScan® Essentials™

eCopy

With ShareScan Essentials, office workers can use their multifunction peripherals (MFP) to quickly and securely scan paper documents and distribute electronic copies as PDF files, increasing workgroup productivity through improved access to information. It offers scanning to e-mail, fax, network folders, and eCopy Desktop™. In addition, ShareScan Essential's platform architecture opens unlimited opportunities for integration with any business application through a variety of application integration capabilities.

What's included in ShareScan Essentials

ShareScan connects your MFP to your organization's e-mail and other enterprise applications for easy to use, secure distribution of paper-based information.

eCopy Desktop PC software provides an intuitive interface that enables users to retrieve, combine and edit original-quality scanned documents at their desktop.

eCopy Connectors and Services link eCopy-enabled devices with software applications to give users the ability to scan directly to those applications. ShareScan Essentials includes connectors that enable scanning directly to:

Microsoft--® Exchange™

Lotus Notes--

Mail via SMTP--

eCopy Desktop--™

Fax via Exchange/Notes--

Fax via Print Drivers--

Network locations including folders, --FTP and user Home Directories

Additional Connectors are available separately for document management and cost recovery applications.

When Agencies need to:	ShareScan Essentials delivers:
Effectively manage risks associated with paper documents	Native integration with Active Directory and eDirectory Audit trails and document tracking Scan to PDF/A and document encryption
Enable employees to easily share paper documents and collaborate as they would with electronic documents	Scan to e-mail directly from user email accounts from the MFP E-mail address book / global address list access at MFP Scan to fax, network folders and FTP Scan to Desktop, including the ability to scan to multiple users' inboxes
Enable employees to easily and securely scan and send paper documents to themselves to work with the information contained in those documents	eCopy Desktop to annotate, highlight and stamp documents with signatures and other graphic elements eCopy Desktop to combine scanned documents with other electronic documents into a single PDF Optical character recognition to create Microsoft Word or searchable PDF files from scanned documents
Implement solutions that require little training and are easy to support	Intuitive graphical user interface Consistent user experience across all MFPs Central administration User account-based security and access are dynamically updated from back end systems
Expand systems to meet customized or evolving needs	Hundreds of integrations available for popular applications An easy-to-use software development kit (SDK)

eCopy™ ShareScan® Suite™

With ShareScan Suite software, office workers can use their multifunction peripherals (MFPs) to scan documents securely and seamlessly into business applications that support electronic business processes. It provides a consistent, easy to use interface across any capture device, promoting user adoption and increasing the value of enterprise hardware and business software investments.

The software offers native integration to leading document management, e-mail, fax, database, collaboration, and cost recovery software applications.

What's included in ShareScan Suite

ShareScan connects your MFP to your organization's networked enterprise applications for easy to use, secure distribution of paper-based information.

eCopy Desktop™ is PC software that enables office workers to work faster and more efficiently, making it easy to capture, combine, edit, and secure scanned documents as PDFs.

To confirm pricing or place an order, Contact Canon Representative Jim Mercer at 954 218-0246 or visit: www.gmdflorida.com

eCopy™ ShareScan® Suite™ (continued)

eCopy Connectors and Services link eCopy-enabled devices with software applications to give users the ability to scan directly to those applications. eCopy ShareScan Suite includes Connectors and Services to applications such as:

- Captaris RightFax---
- EMC---® Documentum Content Server®
- Interwoven WorkSite---
- Lotus Notes---
- Microsoft---® Exchange™
- Microsoft SharePoint---™
- Open Text Livelink ECM---
- Open Text Livelink ECM - eDOCS DM---™
- eCopy Quick Connect---
- Cost Recovery Applications---
- Bates Stamping---

Additional Connectors to business applications are available.

When Agencies need to:	ShareScan Suite delivers:
Integrate paper documents into electronic business processes	Real-time, dynamic integration with document management, collaboration, and other business applications
Leverage investments in Microsoft technologies	Integration with Active Directory, Exchange, SharePoint, Access, and SQL Server, as well as integration to additional Microsoft applications created by third-party software companies using the ShareScan SDK
Track or chargeback for copying, printing, or scanning	Integration to document accounting software
Manage risks associated with paper documents	User authentication and access to business applications through dynamic integration Audit trails, document tracking, Scan to PDF/A, and file encryption
Enable employees to easily share paper documents and collaborate as they would with electronic documents	Scan to e-mail directly from user e-mail accounts from the MFP, including address list access at the MFP Scan to Fax, network or Web folders, databases, or FTP
Retrieve, edit, and distribute scanned documents	Scan to Desktop, including the ability to scan to multiple users' inboxes eCopy Desktop to edit PDFs, and combine scanned documents with electronic documents into a single PDF Use optical character recognition (OCR) to create Microsoft Word or searchable PDF files from scanned documents
Implement solutions that require little training and are easy to support	Intuitive graphical user interface and consistent user experience across all MFPs Centralized administration User account-based security and access are dynamically updated from existing back end systems
Expand systems to meet customized or evolving needs	Hundreds of third-party integrations available for popular applications or create custom integrations through a Windows-based development platform and tool kit eCopy Quick Connect for rapid creation of scan workflows, including file naming, indexing, and destination options

LASER CLASS 2050P/310/510

The LASER CLASS 2050P

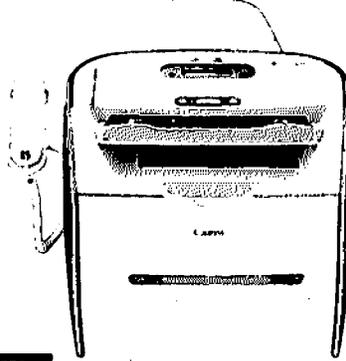

The Canon LASER CLASS 2050P is the perfect fit for workgroups or small offices that require clear and accurate facsimile and laser printing capabilities and a remarkably small footprint.

With the power to handle a monthly duty cycle of up to 6,000 pages per month, the desktop LASER CLASS 2050P provides many productivity features. Its 4MB of memory enables you to store up to 256 pages** in memory for either incoming or outgoing faxes, while the standard industry-leading Super G3 technology provides 3-second per-page* transmission speed. There's also an easy-to-use control panel and an easy-to-access FX3 full-yield front-loading Cartridge.

The LASER CLASS 2050P provides the quality you expect from award-winning Canon multifunction LASER CLASS devices. With a range of productivity features, like face-down collated output for instant use of documents, Full Dual Access that enables you to scan and fax at the same time, and a user-friendly control panel, the LASER CLASS 2050P gives you powerful and reliable solutions for your enterprise.

* Approximate 3-second-per-page fax transmission time based on ITU-T No. 1 Chart (MMR, Standard Mode) at 33.6 Kbps modem speed when transmitting to another V.34 machine. The Public Switched Telephone Network (PSTN) currently supports 28.8 Kbps modem speeds or lower, depending on telephone line conditions.

** Based on ITU-T No. 1 Chart (Standard Mode).

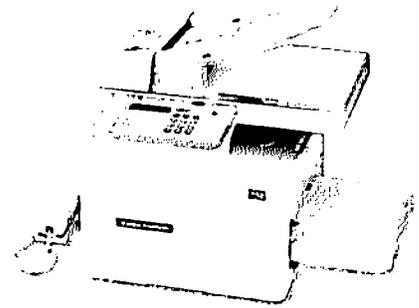

The LASER CLASS 310

Whether you run a small business, work in a branch office, or manage the executive suite, the Canon LASER CLASS 310 is ready to answer your call for productive, affordable plain paper laser faxing, printing, and copying.

Simple to use and maintain, the LASER CLASS 310 will reliably produce crisp laser pages with every job. The system features a 50-sheet Automatic Document Feeder to quickly scan up to legal-sized pages. There's also a 500-sheet paper capacity that's sufficient to handle your most demanding requirements.

Leverage your investment in the latest fax technology by using the LASER CLASS 310 as your laser printer. Canon provides powerful printing technology with standard USB connectivity to enable 1200 x 600 dpi enhanced laser printing in common Windows® environments. For multiuser workgroups, simply connect the external AXIS 1650 Print Server to allow all connected users to print to the LASER CLASS 310 and save even more time, space, and money.

The LASER CLASS 310 adds value as an efficient 19-cpm (letter) plain paper copier at no additional cost. Make up to 99 letter- or legal-sized copies at a time, with complete control over image quality, exposure, and sizing right at your fingertips. With its advanced features, the LASER CLASS 310 gives you a powerful productivity partner that works the way you work.

The LASER CLASS 510

The Canon LASER CLASS 510 is the ideal multifunction device for small agencies, remote offices, or workgroups that have low to mid-volume facsimile and laser printing needs—but require top-quality output.

For offices with mid-volume faxing and low-volume copying and printing requirements, the LASER CLASS 510 offers a powerful and affordable desktop solution. This device is a platen-based MFP solution that offers the ability to fax and copy from the Automatic Document Feeder or the platen.

The LASER CLASS 510 includes copying solutions that have 1200 x 600 dpi enhanced resolution, a 50% - 200% Zoom Ratio at 1% increments, exposure control, and convenient preset enlargement and reduction settings. Using paper sizes from envelope to legal, the LASER CLASS 510 can provide copy runs of up to 99 copies—and even employ electronic collating to give you ready-to-use documents.

imageFORMULA ScanFront 220/220P

The Canon imageFORMULA ScanFront 220/220P scanners are in a class of their own for scanning innovation and workflow efficiency. These sleek, extremely compact stand-alone units plug directly into your office network and deliver direct network scanning and sending. The ScanFront 220/220P scanners offer state-of-the-art imaging technology and a user-friendly interface with full touch-screen convenience.

- Letter-sized color duplex network scanner
- Large 8.5 inch color touch-screen
- Fast, high-quality, reliable 26 pages per minute (35 ipm)*
- Scan directly to e-mail, shared folder, FTP, and USB memory
- Personal, shared and LDAP Address Books
- Customizable Job buttons
- Easy remote scanner management and robust security features

KEY SPECIFICATIONS

Type:	Stand-alone Color Network Scanner
Functions:	Scan-to-E-mail, Scan-to-Folder, Scan-to-FTP, Scan-to-USB Memory
Scanning Speeds:	Up to 26 ppm (35 ipm)*
Scanning Modes:	Black and White, Grayscale, Color
Operation Panel:	8.5" TFT LCD with Touch-Panel
Interface:	LAN 10Base-T/100Base-TX Connector
Daily Duty Cycle:	Approximately 1,000 Scans

Easy-to-Use Touch-Panel Operation

The ScanFront 220/220P scanners are extremely easy to use. With an intuitive interface and a large 8.5-inch touch panel display, users will find navigating scan and send options easy.

Scan-to-E-mail

Send scanned images to a designated e-mail address, with customizable subject lines and messages.

Scan-to-Shared Folder

Send scanned images to a shared folder on a PC or server connected to the network.

Scan-to-FTP

Send scanned images to a specific folder on an FTP server.

Scan-to-USB Memory

Send scanned images to USB memory inserted in the USB slot of the ScanFront 220/220P devices.

imageFORMULA DR-X10C

The DR-X10C color production scanner, designed to improve the efficiency and productivity of high-volume scanning tasks, is capable of speeds up to 128 pages per minute (ppm) and 256 images per minute (ipm). The DR-X10C boasts high speed, high quality image scanning with reliable document handling capabilities, clear efficient, and easy image scanning and superior durability.

Canon Advantages:

- Ability to scan up to speeds of 128 ppm (256 ipm) in color, grayscale, and black and white.
- Industry's first Three-Step Dust Prevention System results in clearer images and minimized maintenance.
- Three Ultrasonic Double-Feed Sensors and a Double-Feed Retry mechanism enable more unattended batch scans.
- Industry's first Dedicated Page Size and Skew Detection sensor reduces batch preparation time.
- Robust daily duty cycle increases sustained durability for mid-volume production jobs.

KEY SPECIFICATIONS

Scanning Speeds:	Up to 128 ppm (256 ipm)
Scanning Modes:	Black and White, Grayscale, Color
Optical Resolution:	600 dpi
Interface:	Hi-Speed USB 2.0

imageFORMULA DR-2010C/2510C

Fast, high-quality duplex scanning in a versatile and space-saving design, the DR-2510C and DR-2010C devices are ideal for all office scanning operations, from general use to market specific. They offer reliable feeding, advanced image processing functions, customizable Scan-To-Job buttons, and much more for your agency or distributed scanning applications.

Canon Advantages:

- High-quality color duplex scanner
- Speeds of up to 25 ppm for the DR-2510C
- Speeds of up to 20 ppm for the DR-2010C
- Customizable Scan-To-Job buttons
- Versatile three-way eject paper tray system ideal for tight spaces
- Advanced DR-Series scanner functions
- Automatic Power On/Off

KEY SPECIFICATIONS (DR-2010C)

Scanning Speeds:	Up to 20 ppm or 40 ipm
Scanning Modes:	Black and White, Grayscale, Color
Optical Resolution:	600 dpi
Interface:	Hi-Speed USB 2.0
Feeder Capacity:	50 Sheets
Daily Duty Cycle:	Approximately 700 Scans
Warranty:	One-Year Limited Warranty

imageFORMULA DR-2050C/SP

Canon Advantages (DR-2050C)

- High-precision roller system that helps deliver smooth, reliable feeding
- Fast OCR scanning and searchable PDF creation
- Streamlined, space-saving design and lightweight at only 5 lb.
- Folio Mode for occasional 11" x 17" scanning
- Long Document Mode for documents up to 39" long

Canon Advantages (DR-2050SP)

- Impressive double-duty scanner with "Scan-to-Projector" functionality
- Award-winning DR-2050C scanner features when connected to a PC
- Multiple input presentation tool (Scan, USB, Portable Infrared Device)
- Remote-control-operated for enhanced presentation capabilities
- Ultra-compact and portable design

Bundled Software (Both)

- ISIS®/TWAIN Drivers
- Canon CapturePerfect® 3.0
- Adobe® Acrobat® 8.0 Standard
- Nuance OmniPage® SE 4

KEY SPECIFICATIONS (DR-2050C)

Scanning Speeds:	Up to 20 ppm or 40 ipm*
Scanning Modes:	Black and White, Grayscale, Color
Optical Resolution:	600 dpi
Interface:	Hi-Speed USB 2.0
Feeder Capacity:	50 Sheets

MS-300II

MS-300II Specifications

- Desktop digital reader-printer/scanner system
- 12" x 12" viewing screen
- Automatic bimodal function
- Interchangeable film/fiche carriers
- Intelligent retrieval capability with FS Controller
- Optional PC Video I/F, SCSI I/F, and ISIS Scanner driver
- Plain-paper output—up to 11" x 17" with optional File Print 450
- User-replaceable MP cartridge for lower maintenance of optional File Print 450
- Bundled with CapturePerfect® software

Specifications are subject to change without notice.

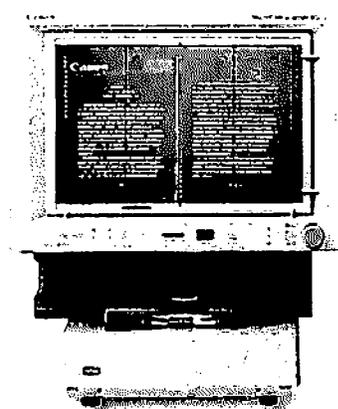

MS-800II

MS-800II Specifications

- High-speed, three-second scanning
- 11-3/4" x 17" viewing screen
- Scan Modes: B/W, B/W Fine, B/W Photo, Grayscale (4/16/256 levels)
- Up to 600-dpi resolution
- Standard automatic focus, exposure, and bimode sensing with manual overrides
- Standard motorized zoom lens and image rotation with auto skew correction repositions the images into a single, portrait-oriented data file
- Memory function keys for frequently used control panel settings
- Standard SCSI and Video I/F
- Interchangeable carriers
- Optional remote-operation keyboard
- Optional File Print 450 laser printer for prints up to 11" x 17"
- Bundled with Scanning Utility 800 and CapturePerfect® software

Specifications subject to change without notice.

Rotary Filmer 550DII

Specifications

- Quiet and reliable feeding at up to 500 checks per minute*
- High-density duplex (both sides) recording (42x)
- Automatic date recording
- Optional Endorser
- Up to 9-1/16" document width

Specifications subject to change without prior notice.

Canon

“What kinds of technologies has Canon developed lately to help reduce energy consumption?”

“Our company must operate in much more environmentally-friendly ways. Does Canon operate similarly?”

“We must consider the environmental repercussions of all purchasing decisions. Do Canon products help make those decisions easier?”

ENVIRONMENT

Maximizing Energy Efficiency Through Relentless Innovation

The advanced electronic items we use daily make all our work lives easier — but they require energy. It has been shown that the energy required for electronic devices can have environmental impacts over time. When more energy is needed, the effects cascade, contributing to environmental concerns such as global warming.

Canon has actively worked to temper the impact its products might have on the environment by assessing and reprioritizing business practices, and by developing a range of proprietary technologies that minimize the amount of energy Canon products require.

Environment

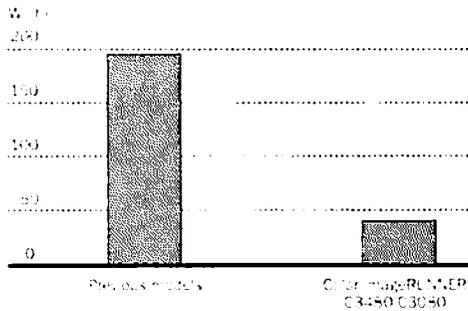

Canon USA, Inc. received its 10th ENERGY STAR award in April 2008 from the U.S. Environmental Protection Agency.

Making the Most of Every Last Watt of Power

Every next-generation model of a Canon product is specifically designed to help reduce energy consumption when compared to the previous version.

For Canon MFP devices specifically, we have succeeded in reducing power consumption in sleep mode to 1W or less for imageRUNNER, and 3W or less for the Color imageRUNNER — power consumption reductions of approximately 80%.

This kind of energy efficiency should not only help reduce the strain on the environment, but in also help lower power bills for your business.

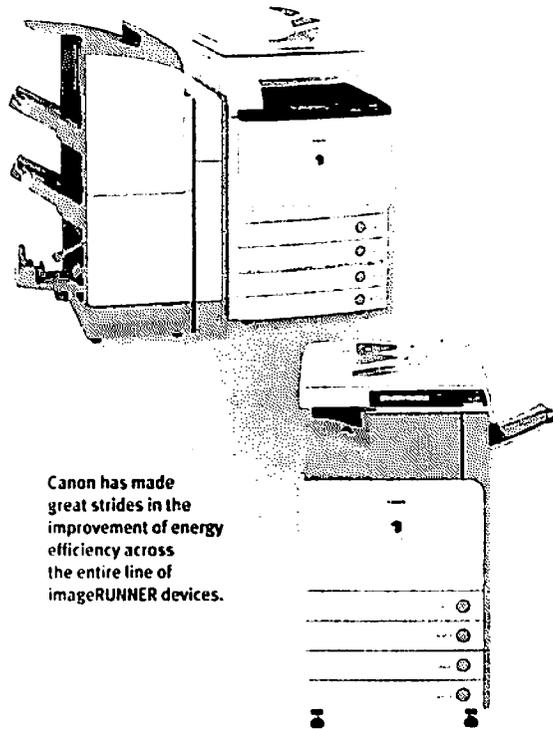

Lower energy consumption reduces demand for electricity and helps to mitigate the effects of power generation.

Reinforcing Participation and Compliance With ENERGY STAR®

The ENERGY STAR® Program – announced in 1993 by the U.S. Environmental Protection Agency (EPA) – promotes the development of energy-efficient products to combat global warming and other environmental issues.

As one of the leading producers of energy-efficient equipment, Canon has qualified more than 150 of its products since the program's inception. Since the EnergyStar program was announced in 1993, an impressive number of Canon copiers, printers, and multifunction peripherals have earned the ENERGY STAR® rating.

Canon has made great strides in the improvement of energy efficiency across the entire line of imageRUNNER devices.

FOCUS ON THE ENVIRONMENT

Guided by the philosophy of kyosei -- living and working together for the common good, Canon U.S.A. has chosen to protect future generations by preserving America's most valuable resources -- children and the environment -- through the support of a wide range of local and national environmental and youth programs.

In 1990, Canon introduced The Clean Earth Campaign and began to recover and recycle toner cartridges used in many Canon office products. In 1995, Canon U.S.A. repositioned The Clean Earth Campaign as a branding umbrella to represent all of Canon's U.S. environmental accomplishments. This campaign has grown into one of the leading and most visible environmental cause related initiatives in the U.S.

- Eyes on Yellowstone, made possible by Canon is an educational and research program with Yellowstone National Park.
- Canon National Parks Science Scholars Program for the Americas develops the next generation of scientists working in the fields of conservation, environmental science and park management. It is the first and only program of its kind to encourage doctoral students to conduct innovative research on scientific problems critical to national parks.
- Canon Envirothon is sponsored in partnership with the National Association of Conservation Districts, the U.S. Forest Service and other conservation agencies. Each year, more than 500,000 teenagers throughout North America embark on a year-long learning process that combines in-class curriculum with hands-on field experiences to demonstrate the role people have in important environmental issues.
- Canon works in voluntary partnership with the EPA to: design products that meet the high standards of its ENERGY STAR program, find practical methods to reduce municipal solid waste as part of the WasteWise program and partner with the transportation industry in SmartWay Transport to reduce fuel consumption, reduce emissions that affect health and reduce greenhouse gas emissions that affect the environment.

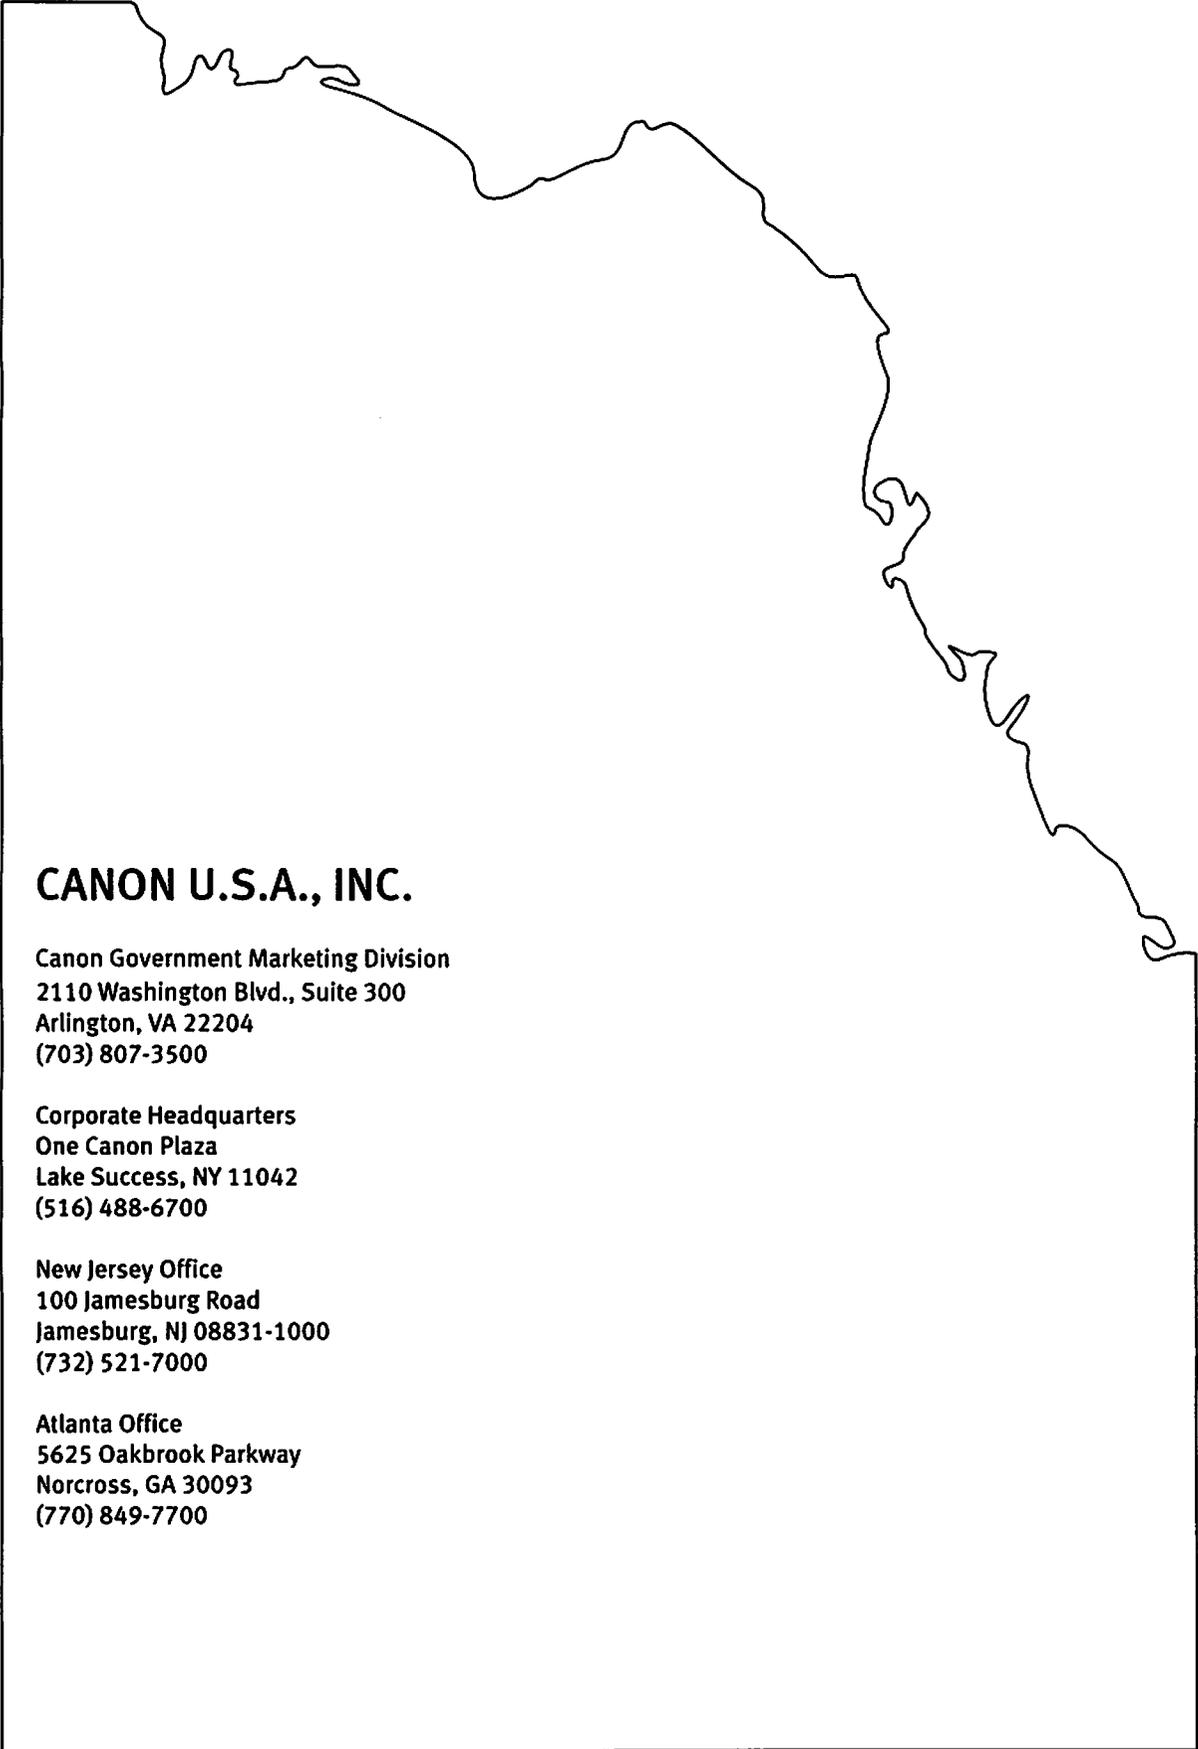

In addition to these and many other environmental and community initiatives, Canon also tries to help find our missing children. Since 1997, Canon has collaborated with The National Center for Missing & Exploited Children to raise public awareness about the growing issue of child abduction. Canon4Kids stresses the need for parents to update photos and have them available to assist authorities in a search for a missing child, and it has provided photographic and printing products to law enforcement agencies nationwide to aid in the recovery of missing children.
