Re: Non-residential Trash Container Ordinance

Background

Recently, the Village Council discussed non-residential trash containers within the Village. After this discussion, the Village Council directed Village staff to work with the Village Attorney's Office to prepare an ordinance regulating such containers. In preparing the ordinance, Village staff met with the representatives of several shopping centers and the Chamber of Commerce to solicit their input on the proposed regulations relating to the location, appearance, and use of non-residential trash containers.

Non-residential Trash Container Ordinance

The proposed Ordinance requires all trash, garbage, and debris to be placed, disposed, and stored within fully enclosed commercial trash containers with closed lids. In addition, all non-residential property owners with trash containers will be required to submit a "Management Plan" to the Village for review and approval. This Plan requires non-residential property owners to provide: (1) a detailed site plan depicting the location of the container; (2) the screening or other materials (i.e. landscaping, paint color of enclosure, etc.) to be used to minimize the visual impacts of the container; (3) the use of the container (i.e. food or other types of trash that are to be disposed); and (4) the proposed hours and frequency of trash pickup. The requirements of this Ordinance apply to new as well as existing non-residential trash containers. As provided in the Ordinance, all non-residential property owners with trash containers have 90 days to submit a Management Plan to the Village and 180 days to fully comply with the provisions of this Ordinance.

Recommendation

The Village Attorney's Office and Village staff recommends approval of this Ordinance.
