

# Art in Public Places Board – Work Plan – FY2011

In FY2011 the Art in Public Places Board will begin the process of site selection to identify and contract an artist for the next commission. The educational program will be expanded to include teacher training to conduct tours of the program and to implement classroom-based activities about public art. The program's web site will be promoted as a resource to residents and visitors as well as an integral part of the educational program. Programs for the community will include an artist's talk, site projects by artists and a presentation on public art by a prominent speaker.
